GENERAL INFORMATION

SERVICE

Our aim is to satisfy and to please our customers in every respect. If anything goes wrong we want them to tell us frankly and give us a fair chance to make it right. If you don't tell us it cannot be considered our fault.

GOODS

Our goods are as represented of highest quality at lowest price. Combined with reliable and prompt service, we made thousands of satisfied friends whom we have served for 35 years and we hope to continue serving them as well as others who will give us a trial.

WHEN ORDERING

Always give number and name of article wanted, which will avoid correspondence and delay. Our aim is to give prompt service.

IF YOU ARE IN DOUBT

as to correctness of article wanted or same is not listed in this catalogue, send sample. If we do not stock same we will endeavor to obtain it for you.

DO NOT FORGET

- 1—Address your mail fully and clearly. We often receive orders without name and address.
- 2—Never remit cash in ordinary letters, as there is a possibility of it going astray.
- 3—Always remit by Post Office Money Order, Postal Note, Express Money Order or Bank Money Order.

WE DO NOT

pay Shipping Charges. You must remit sufficient cash to cover Postage or Express Charges at Stations without Agent. Otherwise we will be compelled to ship goods to nearest open Station. If you remit more than required same will be refunded with parcel.

TRAFFIC RULES

Bicyclists can add much to their own safety and increase their prestige with the general public by always observing these traffic rules, as motorists are obliged to do.

The bicycle is a vehicle and is entitled to the same rights and privileges on the road as motor cars and other vehicles.

It is also, however, subject to the same laws.

Bicyclists should keep to the extreme right side of the road and, as far as possible, out of the way of other vehicles.

Many boys make a practice of hanging on with the hand to a car or other moving vehicle and are led into danger accordingly.

A bell, horn or other warning device should be on every bicycle, and should be used.

TEN COMMANDMENTS FOR CYCLISTS

- 1—Keep to the right and near the curb.
- 2—Meeting traffic, pass on right; overtaking traffic, pass on left.
- 3—Turn right close to curb. Turn left around centre of intersection.
- 4—Raise one arm when stopping and slowing up and to indicate direction when turning.
- 5—Ride straight. Don't wobble.
- 6—Watch for STOP signs and traffic officers' signals.
- 7—Give traffic coming from right the right-of-way at intersections
- 8—Do not hang on to moving vehicles.
- 9—Don't "cut in" in front of a moving car.
- 10—Keep your feet on the pedals—your hands on the handlebars.

AGENTS, DISTRIBUTORS AND MANUFACTURERS

Established 1914

247 Notre Dame Ave., WINNIPEG, MAN.

Dear Friend and Customer:—

We wish to take this opportunity of thanking you for your past support. Our business relations, we trust, have been mutually satisfactory, and there is no need for us to assure you that we personally appreciate your patronage and pledge ourselves to do everything in our power to merit a continuance of your goodwill.

You may continue to rely on us to serve you to the best of our ability to fill your orders with the best quality of goods at the lowest possible prices.

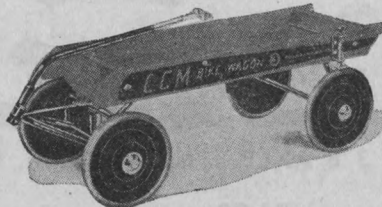

Any orders we receive from you—whether large or small—will be given personal and immediate attention.

We trust this catalogue will be of interest to you, in case you have no further use for it, will you kindly pass it on to someone you know that could use it, we shall consider it a great favor for doing so.

Yours for Service, **BICYCLE SALES CO.**

---------------	-----	-----	-----	-----	-----

One Dozen to Box.

Easy Spin arrangement, no swivel required.

GLITTERING MINNOW

The Glittering Minnow is an improvement over the well known "Devon." This bait is stamped out of heavy gauge cold rolled sheet copper. Mounted with plain or feathered treble hook and brass barrel swivel on strong split rings. When in action its highly polished flat sides throw a glittery flash which fish cannot resist in striking. Exceptionally good for pickerel. Length of body 3 inches, over all 5 inches. Finish—All Nickel, All Copper, All Brass.

- No. 904. With plain treble hook.
Per card.....**\$3.30** Each **.55**
- No. 905. With feathered treble hook.
Per card.....**\$3.90** Each **.65**

Put up six baits to a card, two cards to box.
State finish wanted.

ATTRACTION SPINNER

A rust-resisting wire leader, mounted with a 2-inch Minnow-shaped blade. A handy spinner which can be used to great satisfaction with any artificial or live bait for extra attraction. Finish—All Nickel.

- No. 20. Leader with spinner. One dozen to box.....Each **.30**

PILOT BASS SPINNER

Highly polished propeller shaped blade, mounted on rust-resisting wire shank. Bright red beads below blade. Easy spring snap. Finish—All Nickel.

- SINGLE—No. 103, Medium. Blade length 1 1/4-in. Hook F.T. size 1-0. Each.....**.35**
- DOUBLE—No. 105, Medium. Blade length 1 1/2-in. Hook F.T. size 2-0. Each.....**.45**

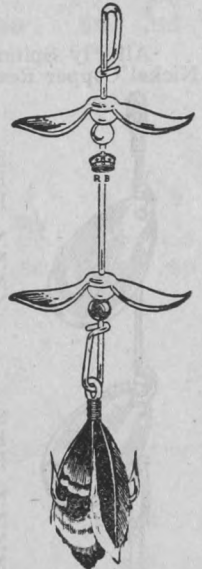

One Dozen to Box.
Easy Spin arrangement.

THE NEW PICKEREL DARTER

A famous Pickerel bait. It spins and darts. Constructed with a specially designed small wobbler and spinner. On the lower end of the wobbler is attached a treble hook on a split ring. On the upper end a wire trace beaded with red ruby beads. Above the beads is fitted a close spinning blade of the same shape and size as the wobbler. Put up one dozen to card, 2 cards to box. Finish: All Nickel.

- No. 560. Size 1. Blade length 1 3/4 inches. Hook P.T. size 4. Each.....**.55**

- Double Pickerel Spinner, two blades of same shape mounted on ruby-beaded wire shank.
- No. 561P—With P.T. Hook. Each **.45** No. 562F—With F.T. Hook. Each **.50**

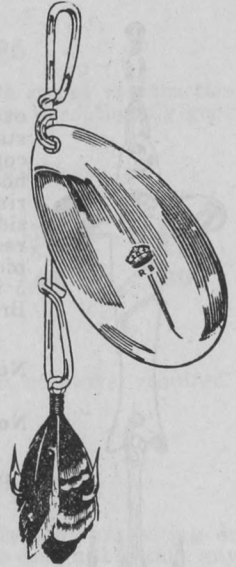

NOTE

If desired, we can card for you any of the boxed baits listed in this catalogue into suitable assortments for your trade, 6 Baits to card, 2 cards to box, at an extra charge of **.40** per dozen list.

OVAL SPOONS

The old reliable for general fishing. Extra heavy spring brass wire shank, double bearing easy running hanger and spear point feathered treble hook. No swivel. Finished—All Nickel, All Copper or Copper and Nickel Reverse.

LANDING NETS

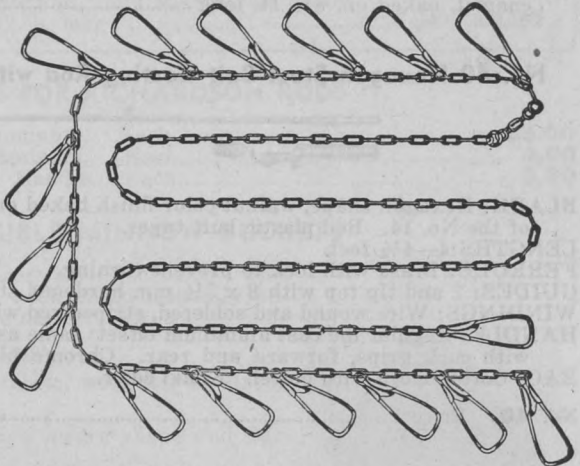

Not the actual Illustration

A new sensation of dura alumna automatic extending landing net. It is of excellent light weight and will float in water. By merely pressing a trigger in the handle, the wooden handle pushes approximately 14 inches up the extension pipe of the handle of the landing net proper. It then flips over to a movable joint into the landing net and folds up into approximately 14 inches by 5 inches. The net is 22 inches in depth. Color of landing net—frame of chrome steel, maroon and green.

No. 60—Landing Net. Price.....Each **\$6.95**

COLLAPSIBLE MINNOW BUCKETS

Here is an item that will interest most fishermen. This new patented MINNI-SAC has been enthusiastically endorsed by all fishermen who have used it.

Here are some of the advantages:

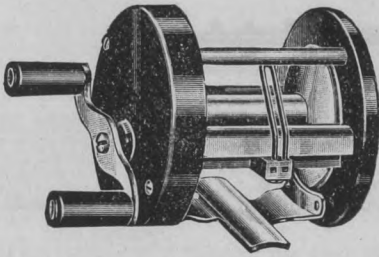

1. Constructed of waterproof fabric, with top of strong cotton netting.
2. Steel rings at top and bottom insure shape and durability.
3. Compact (collapsible to one inch in height).
4. Remains erect when full of water.
5. Evaporation through bag keeps bait cool, active and alive.
6. May be hung from the belt, shoulder or from side of boat. May be hung from door handle of car on long trips.
7. No more bulky and noisy buckets.
8. Saves returning for bucket while wading or fishing from shore.
9. Also may be used for keeping Frogs, Hellgramites, Crickets, Grasshoppers, Salamanders and Soft Craws.
10. Two sizes reasonably priced within the budget of every fisherman.

Light weight aluminum spool fitted with cork arbor spool filler. Packed individually.

No. **2550**. Price.....Each **\$6.70**

LASHLESS LEVEL WINDING REEL

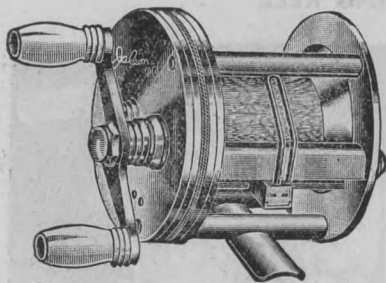

An amazing new development in level winding bait casting reels that is a practical boon to all bait casters, expert and amateurs alike. This reel is equipped with a newly devised spool bearing mechanism that provides a highly sensitive accurately adjustable anti-back lash feature. Unlike old style anti-back lash reels this reel does not have a bail wire under which the line must be threaded to control the cast. All adjustments to compensate for the variation in the weight of different lures and the style of

the angler's cast are made by turning the tail plate spool bearing on the left end of the reel. Turning it to the right increases the tension applied for heavy lures and turning to the left decreases the tension for light lures. When properly adjusted this new feature eliminates thumbing and backlashes. Constructed of high grade brass throughout, heavily chromium plated. Equipped with a new aluminum spool that is 28% lighter. Adjustable click on tail plate. Full 100 yard capacity and quadruple multiplying. Four gear train, two spur and two spiral. Furnished with duo-pawl. Two pawls in one. S shaped crank with comfortable shaped colored handles. Length of pillars 1 3/4 in. Diameter of spool 1 1/2 in. Spool fitted with cork arbor spool filler.

No. **1700**. Price.....Each **\$10.00**

Genuine J. A. Coxe Level Winding Casting Reel—Model 60

This new Coxe custom-built level winding reel even though only moderately priced, retains most of the exclusive Coxe features. Cross-bolt type construction which allows greater distance in casting with less effort. No tools required to disassemble reel; merely remove cross-bolt and reel falls apart. Of high-grade brass throughout, beautifully chromium plated. Featherweight aluminum spool. Smooth action thumb drag. Comfortably shaped, ivory colored handle grips. Adjustable click. Quadruple multiplying. 100 yard capacity. End plate diameter 2 1/4". Spool diameter 1 1/2". Pillar length 1 3/4". Net weight 8 ozs. Shipping weight 13 ozs.

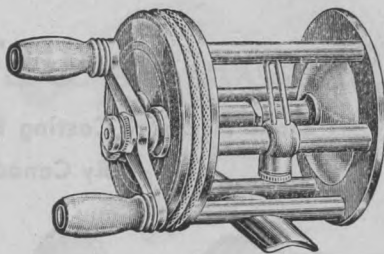

No. 60C. Price.....Each **\$13.40**

Genuine J. A. Coxe Level Winding Casting Reel—Model 95C

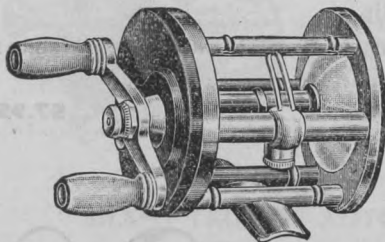

Here's a brand new reel. New in design, new in materials, new in lightness of weight, new in casting action—at a new low price! We can truthfully say it is without an equal for noiseless action, smoothness of performance, real non-backlash operation, combined with unbelievable featherweight advantages. The Model 95C is another choice addition to the Coxe family of famous bait casters.

It is designed to match the lightness and smarter "whip" of today's new bait casting rods. It is built for a lifetime of fishing enjoyment. It is inexpensive enough for the beginner—yet built with a standard of performance to serve the most discriminating dyed-in-the-wool fisherman. Made of black anodized aluminum (proof against chipping, cracking or oxidation) and bright chrome, it is truly a beautiful reel. Weighs 4 1/2 ounces. Has special spring tension spool bearing on tail plate, adjustable to any weight lure to eliminate backlash. A snap-on plastic arbor with line tie is furnished with each reel. Quadruple multiplying with new silent spiral gears. 100-yard line capacity.

No. 95C—PriceEach **\$11.95**

Genuine J. A. Coxe Level Winding Casting Reel—Model 25

The feature reel in the Coxe line of bait casting reels is "tops" in reel building perfection. The workmanship, materials, and design are the finest Coxe cross-bolt-take-down construction. Featherweight spool. Feather touch thumb drag. One piece frame, no screws. Gear shaft oiling feature. New Coxe free spool mechanism. New level winding screw guard, more complete protection. Gear shaft, level winding pawl and cross-bolt of monel metal. Adjustable click on tail plate. Black molded end plates. 100 yard capacity. Quadruple multiplying. End plate diameter 2 1/4". Spool diameter 1 1/2". Pillar length 1 3/4". Net weight 8 ozs. Shipping weight 19 ozs.

diameter 1 1/2". Pillar length 1 3/4". Net weight 8 ozs. Shipping weight 19 ozs.

With a Tru-Art Automatic you're always ready when the big ones strike. Free stripping with automatic take-up of slack line at touch of a finger. Strong aluminum frame with attractive green anodized finish. Chrome plated line guard. Capacity 80 yards G line.

No. 1837—Price **\$12.95**

SHAKESPEARE RODS

TRU-AIM DOUBLE OFFSET HANDLE

An Inglis-Shakespeare Exclusive!

Accurate casting is as easy and natural as pointing your finger. Handle, reel seat and rod blade are all set at different angles. You're in balance only when you're in correct casting position, with the reel handles on top and the reel running smoothly on the tail bearing. Relieves wrist strain.

SIMCOE

Solid tapered steel blade. Two guides and tip. Tru-Aim handle in attractive lacquer finish. Quality cadmium plated blade. Length 4½ ft.

Price **\$7.95**

ST. LAWRENCE CASTING ROD

Highest quality solid steel, cadmium plated—two stainless steel guides and tip. Both 4½ and 5 ft. over-all length. Tru-Aim handle.

Price **\$11.95**

SEVERN

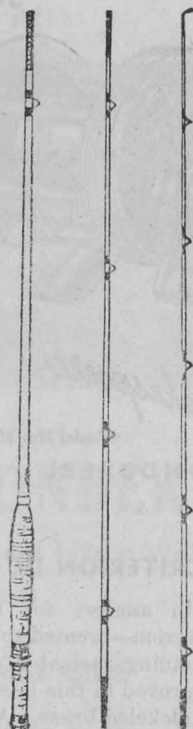

High quality solid squares tapered steel blade. Two chrome plated guides and tip. Tru-Aim handle. Finished in metallic lustre lacquer. Length 4½ ft.

Price **\$9.95**

GLASS WONDEROD

SHAKESPEARE WONDEROD. This rod has the action of a very fine Bamboo Rod which is attained from using over a million glass fibres in building one casting rod. Glass fibres are very flexible and are even stronger than steel. The three guides and tip are of Carboloy. Has famous Shakespeare double offset handle, buffed and adonized green. Heavy Canvas case of Royal Blue edged with Tangerine, Zipper opening, aluminum tube for rod protection.

No. 1190—Shakespeare Wonderod,
5 ft. 2 in.....Each **\$29.95**

CANDIAN SPLIT CANE FLY RODS

Mr. Andrew Barr, a Scottish rod-maker, is producing a line of split cane fly rods which we believe to be equal, if not superior to, any split cane rods made on this continent. Each rod is well-balanced, beautifully finished and unconditionally guaranteed against any manufacturing defects. Best quality butt cane is used, aluminum screw reel seat, snake guides, silk whippings ensure a handsome, serviceable rod.

Heddon No. 1051 "PAL" Bait-Casting Rod

The Rod With the Fighting Heart

Heddon "PAL" Tubular Steel Rods combine extreme lightness with great power, backbone and balance, due to Heddon's new and improved process of tapering and power-tempering. By the PROPER DISTRIBUTION of steel, the wall thickness in the lower half of the tip—where strain is concentrated—is greater than in the upper part where flexibility is required. This is a patented feature of Heddon's.

The "PAL" Bait Casting Rod is neither tip-heavy, nor has it a wrist-breaking and tiring vibration, but duplicates the "feel" of a fine Bamboo Rod. For nearly a half century the craftsmen of Heddon's have produced the finest of split bamboo rods . . . rods noted for their perfect action and feel. This priceless skill is combined with the science of metallurgy to produce the Heddon "PAL" Tubular Steel Rod.

No. 3151—DeLuxe Model "Pal" Bait-Casting Rod with OFFSET HANDLE

Durable black offset handle, Screw-locking Reel-Seat and with cork rear grip and hand-checked Circassian Walnut forward grip. Tip locks in place—cannot stick or turn or come out by accident. Tip finished in rich "brownstone" grained effect and handsomely trimmed in two colors of silk. Chrome metal guides. Handsome case, tip protected by tube.

- No. 3151L—Light Action, 4½, 5 ft. long Each **\$28.35**
- No. 3151M—Medium Action, 4½, 5 ft. long Each **28.35**
- No. 1051M—Medium Action, 4½, 5 ft. long Each **19.85**
- No. 751M—Medium Action, 4½, 5 ft. long Each **14.20**

2120 SERIES—"CRAZY-CRAWLER" SURFACE BAIT

The "TOPS" of top-water baits. A surface bait with a swimming-crawling action that really gets the big ones. Different from all other surface lures. A consistent prize winner in national fishing contests. Big bass, pike and muskies cannot resist it.

No. 2120-Series

Weight ¾ oz. — Length 2¾ in. — Two No. 2 Treble Hooks.

Price **\$1.75**

730 SERIES—THE NEW, PERFECTED "PUNKINSEED"

No. 730 Series

Heddon "PUNKINSEED"

Do not confuse this lure with any previous model of the Heddon "PUNKINSEED." This bait has undergone a radical change which gives it an entirely different life-like action combined with natural colorations that duplicate the panfishes—the favorite food of the hard-to-get big ones.

A sinking bait which travels approximately two feet under the surface when retrieved, depending upon the speed of reeling. Catches bass, walleyes and pike when other lures fail.

Weight ⅝ oz. — Length 2¼ in. — Two No. 2 Treble Hooks.

Price **\$1.55**

HEDDON'S PLASTIC PLUG BAITS

9010 SERIES — MIDGET — "RIVER-RUNT-SPOOK"

The smallest of the "RIVER-RUNT-SPOOK" family. Extremely popular with the light-tackle angler. Sinks slowly and has excellent action. Especially effective for large and smallmouth bass, white bass, walleyes and other game fish, including large brown and rainbow trout. Especially suitable for use with EXTRA-LIGHT action "PAL" rods. State color and size wanted.

PENN REELS FOR WIRE LINE DEEP TROLLING

Ideal for Deep Bottom Fishing

The No. 149 is a star drag reel. The free spool clutch is operated by a snap lever on rim. The steel gears are double multiplying for easy winding. The over-size handle is fitted with our slip-proof torpedo grip and one turn of the handle winds in 1 1/2 feet of line. End plates are metal bound. The molded plastic spool is light in weight, 100% salt water proof and fitted with a large diameter (1 3/4") arbor for fast winding. Metal parts are hand polished and chromium-plated. Weight of reel 25 oz. Line capacity 150 to 200 yards.

No. 149—Price Each **\$11.25**

POPULAR STAR DRAG REEL

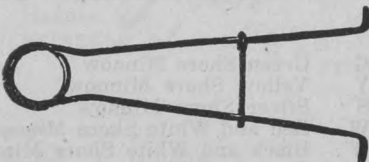

With "Light Weight" Spool

A star drag Universal salt water reel of standard size for deep sea, surf, pier, boat and bay fishing. This reel is equipped with our light weight **EASY-CAST** spool which produces long casts and reduces backlashes. In addition, this spool is corrosion proof and a great line saver. Reel is made of genuine bakelite and brass, finished in nickel. Plate diameter 3 1/4"; spool width 1 13/16"; weight 13 1/2 ozs. Line capacity 200 yards. No. 9 or 150 yds. No. 12

No. **729** (A)Each **.15**

RINEHART'S "JINX"

THE LURE WITH THE TWO MOVEMENTS

The "Jinx" is designed to be used as a deep water lure as packed, but by changing the screw eye sideways on plug it makes a semi-surface plug that travels a few inches under the surface with a wide lazy movement. This style can be used over weed beds and in shallow water. When used as a deep water lure the "Jinx" has a short erratic movement.

Made of tenite in hard durable finishes that will not crack, peel or chip.

Weight one-half ounce—2¼ inches in length.

Recommended for large and small mouth bass, wall-eyes, pickerel and other fresh and salt water game fish.

Packed in individual box — one dozen to a master box.

Made in the following patterns with code letters:

- No. 2—Double Spinner, 5/8 oz. (M)Each **1.35**

No. 1½—Runs Medium

NEW No. 2½ FOR EXPERTS ONLY

- No. 2½—Single Spinner, 5/8 oz. (M)Each **\$1.35**

A Noisy Surface Bait! Can be reeled over but not through most weeds and moss. Will catch fish when reeled in slowly but is designed for fast retrieving. Bass will strike this noisy, fast moving bait when others fail. Can get varying sound effects by holding rod tip at different angles and retrieving at different speeds.

No. 3—Streamlined. This bait is streamlined to go through fine clingy moss. A real killer for Large Mouth Bass and Pike. The world's best all-around weedless bait. Casts farther than No. 2 and is better for windy weather. Wears a small (20 streamer) skirt.

- No. 3—5/8 oz. (M)Each **\$1.35**

NEW HULA DANCER

Small but heavy enough for long casts. Used with the small size hula skirt. Action is like a hula hula dance. Same colors as Jitterbug.

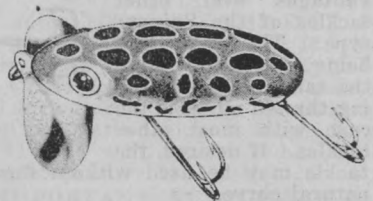

- Hula Dancer—5/8 oz. (M)Each **\$1.35**

JITTERBUG

The big double-lobed spoon attachment not only makes the best wobble but also makes a paddling sound. Just the right bait for Bass and surface fishing. Colors: Frog, Red and White, Perch, Scale, Yellow, Black. Note 3/8 oz. sinks slowly when at rest.

- Jitterbug—3/8 oz. (M)Each **\$1.35**
- Jitterbug—3/8 oz. (M)Each **1.35**

No. 8—Size 12⁷/₈ x 6¹/₄ x 5⁵/₈. PriceEach **\$2.95**

THE P. K. TACKLE BOX

No. 29 Tackle Box has the famous Lift-Lock handle—automatically locking box when handle is in carrying position. Prevents loss of valuable lures and accessories. Continuous hinges, water-tight electrically welded seams. Corners are rounded and reinforced. Equipped with 4 cantilever trays. The two lower trays have 8 compartments lined with cork—keeps finish of fancy lures from scratching. Two upper trays have 3 unlined compartments each. Outside of box finished in black wrinkle enamel. All hardware and tray mountings rust-resistant.

No. 29—Size 17¹/₂" long, 8¹/₂" wide, 10¹/₂" highEach **\$17.95**
Weight—10 pounds.

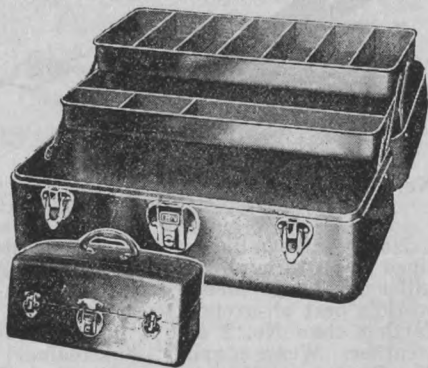

WATERTITE TACKLE BOXES

One-piece, full drawn, seamless round corners, returned edges, embossed stripe reinforcement on cover, embossed reinforcement on bottom. Watertight throughout. Finished in Chriscoat rust-resisting undercoating. Sand tan hammertone exterior two-coat enamel finish. Rust-resistant cadmium plated spill-proof lock and matching bolt catches, full grip handle riveted to cover.

Size 14¹/₂" long, 7¹/₄" wide, 6" high, cantilever tray with 7 compartments, weight 4 lbs. each. No. 8414—PriceEach **\$5.50**

Size 19" long, 7¹/₄" wide, 6" high, single cantilever tray with 9 compartments, weight 5¹/₄ lbs. each. No. 8319—PriceEach **\$6.85**

Size 19" long, 7¹/₄" wide, 7" high, double cantilever tray with 9 compartments in top tray, 1 full length compartment, 1 half length, and 3 small compartments on bottom tray. Has spring clips to hold cards of hooks and leaders. No. 8419—PriceEach **\$8.50**

ALCOCK'S LATEST PATTERN OF DEAD BAIT SPINNER

The "SAFETY FIRST" SPINNER (Patent 1379/24). Strong and simple, it has many advantages over other tackles of the Spinner type. The dead bait being threaded from the tail prevents it being thrown off as is the case with most other tackles. If desired, the tackle may be used without fins, and after a few casts the bait will assume a natural curve.

Baited with Fins.

"CAMP-RITE"

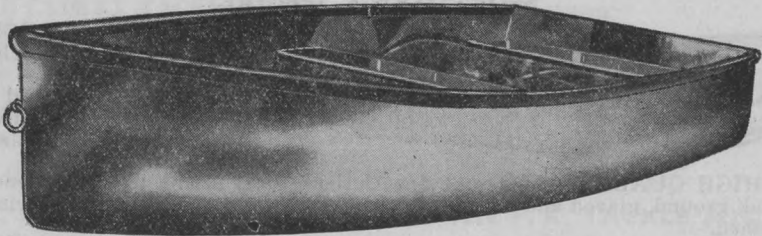

Here's the Ideal Equipment for the Great Outdoors

The adjustability of CAMP-RITE is one of its outstanding features. It's detachable. Can be set up in thirty seconds. CAMP-RITE compactness makes it ideal for outdoor camping. It consists of only four parts which fit snugly into a box 11" x 24" x 1", constructed of durable material.

IMPORTANT FEATURES

The griddle, which is 10" x 16", has an adjustable range of 18 inches vertical, 17 inches horizontal, and revolves 360 degrees. CAMP-RITE weighs only 5 lbs. PriceEach **\$5.45**

DURALUMINUM WELDED BOATS

Welded Duraluminum Boats; not a pound of excess weight — not an ounce of strength sacrificed. Wood gunwale for strength and fending. Wood seats — braced — never get as hot or cold as metal. Pentox treated wood insures against moisture, rot, insects. Non-sinkable; air tanks in bow and stern. V-bottom and 6-bilge keels prevent sliding. Rubber floor and bow mats. Oar locks. NO PAINTING — NO CAULKING — NO LEAKING.

If you want a lightweight utility boat with a nice turn of speed and easy handling we recommend you the Aluminum Boat. A smooth, easy sailer on any man's river. Good for rough water, too. Made in two sizes.

Price, per 1-lb. Tube, F.O.B. Winnipeg..... **.75**

POW-R-FLO

THE SPECIAL NEW TYPE 2-CYCLE LUBRICANT

Specially blended from fine, highly purified, crude bases . . . with the new penetrant and cleaning additives that give COMPLETE lubrication — at all speeds and under all weather conditions.

Non-Carbonizing

Pow-R-Flo Outboard Motor Oil is more free from carbon content than ordinary oils — plugs keep cleaner and rings are free from sticking. A specially refined oil, proportioned exclusively for two-cycle lightweight motors, assures a clean motor when used with a good grade of gasoline.

No Piston Varnish

to gum rings. It furnishes correct lubrication and saves frequent overhauling and repair work, helps maintain the speed control, makes all outboard motors start easier.

Mixes Quickly—Stays Mixed

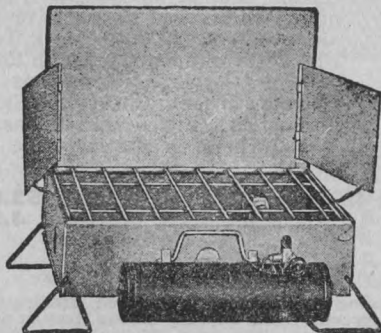

Prevents oil clogging in carburetor and fuel line . . . a better lubricant for new and old motors. NOT recommended for four-cycle motors.

Made by the makers of the proven Pow-R-Flo lubrication products used in truck and bus fleets, diesels and tractors.

DIRECTIONS: Use Pow-R-Flo Outboard Motor Oil in the correct amounts as recommended by the manufacturer of your outboard motor, for best results use a good grade of gasoline.

OVERUNDER SHOT GUNS

The Overunder Shotgun represents the most efficient and highest development of the double barrel gun and the Browning Overunder is the outstanding design and example of the Overunder type. For years, the Overunder type gun has been known to possess marked advantages over side-by-side guns for all forms of shooting. The Browning Overunder combines the advantages claimed for single and double barrel guns — plus additional advantages. It has fewer but stronger parts — coil springs are used. The large number of enthusiastic shooters using the Browning is evidence of its merit and worth.

BROWNING STANDARD MODEL GRADE 1 HAND ENGRAVED

Long Range Field Gun with Raised Ventilated Rib—Single selective trigger, automatic selective ejectors which give complete ejection. Field stock, Type F, $1\frac{1}{8} \times 2\frac{1}{2}$ 14 $\frac{1}{2}$ inches. Pistol grip as illustrated. Standard grip forearm as illustrated.

DUPE-A-GOOSE PRACTICAL GOOSE DECOY

- A—Neck Pivot
- B—Hinge for Spreader.
- C—Spreader
- D—Socket Joint Stake.

COMPACT: The head and neck folds down into the body; body folds flat.

NATURAL APPEARANCE: Dupe-A-Goose is a photographic reproduction of a live Canadian goose in natural color. Socket-joint permits decoy to turn and face into the wind.

EASY TO USE: Simply snap spreader in place, push aluminum stake into ground, and then set decoy on stake. Since the metal spreader is permanently attached to decoy it cannot become lost.

TOUGH: Dupe-A-Goose decoys are made of tough oil impregnated stencil board. They will last many seasons.

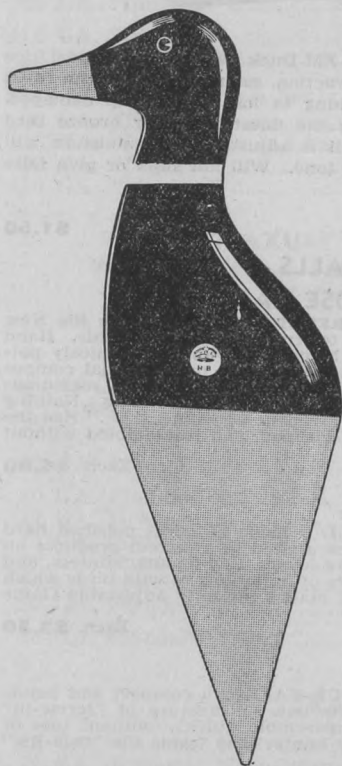

CANADA GOOSE

Nothing excites the average person more than the melodious honking of wild geese winging their way south. These birds are much sought after and justly so as they are a prize any hunter would be very proud to bag.

Price, per dozen.....**\$24.00**
 Complete with Carrying Case,
 Price, per dozen.....**\$27.40**

ROYAL BRAND DUCK STUBBLE HEADS
The Perfect Decoy For Stubble Hunting

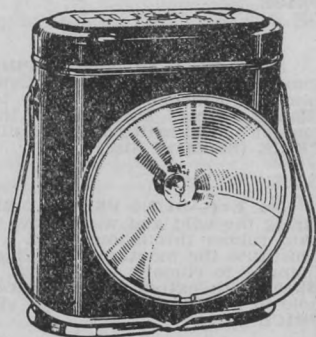

Natural in design. Natural in color. Made of heavy gauge metal. Lower end is pointed for easy staking into the ground. Put up one dozen to canvas bag with lace. Length over all 12".
 Price, per dozen.....**\$9.00**

Please Note: For best results use a combination of Duck Stubble Heads and Goose Decoys. Place Goose Decoys about 10 to 15 yards in front of Pit or Hide, and Stubble Heads at about the same distance at the rear of Pit or Hide. The Goose Decoy will attract the Ducks from a distance and height. As they approach closer they will always land towards the Stubble Heads. This method will bring in Ducks to you anywhere on the field they are feeding in. Pits are best for Stubble Shooting, for either Ducks or Geese.

DELTA ELECTRIC LANTERN

HUSKY—A low-priced, heavy duty utility lantern, giving an effective spot beam. Operates from two No. 6 "Eveready" "Ignitor" Dry Cells.

No. **1452 (L)**—Price completeEach **\$5.85**

DUC-EM ZEPHYR DUCK DECOYS AND DUCK CALLS

Mallard Drake

Pintail Drake

Scientifically made duck decoys — lightweight — durable — lifelike. The original art-work from which DUC-EM decoys were produced was painted by Mr. Lynn Bogue Hunt, a famous wildlife artist who really knows ducks.

DUC-EM Decoys head, neck and bills are flexible and will not break off. Full life size DUC-EM Decoys are true life likeness of the wild species. Guaranteed not to waterlog or lose shape.

4 Mallard Drakes, 2 Mallard Hens, 4 Pintail Drakes, 2 Pintail Hens. 1 dozen to carton.

Price Each **\$1.85**

Price Per dozen **\$22.20**

VICTOR VERI-LITE DECOYS

THE GENUINE DUCK SHOOTER'S DECOY— Made from cellulose — Extremely light in weight — Lifelike reproductions — Designed by sculptor of national reputation — Painted to resemble actual plumage — Thoroughly waterproof — Will stand hard usage — Ready for use — Balanced at factory and equipped with anchor line swivel.

Packed 4 Drakes, 2 Hens per case of 6.

Price per dozen..... **\$24.00**

DUC-EM Tonetested DUCK CALLS

The DUC-EM Duck Call is a new model, one piece construction, sounding mechanism fitted inside, nothing to lose or become damaged. Fitted with the finest phosphor bronze reed locked in, it is adjustable and moisture will not change tone. Will not stick or give false notes.

Price each **\$1.50**

OLT'S PERFECT BIRD CALLS

GOOSE CALLS

No. A-5—OLT'S PERFECT GOOSE CALL in the New Patented Model is made to true precision standards. Hand made of the very finest black hard rubber . . . nicely polished. A single straight reed of our own original composition on Olt's patented reed base, produces melodious sound of a flock saluting geese nearing on the wing. Nothing to lose or change of tone.

double noted "her-onk" of the gander of a flock saluting geese nearing on the wing. Nothing whatsoever to get out of order, because there is nothing to keep in adjustment. . . . Has the new Olt feature of "screw-in" assembly, can be taken apart, cleaned, and reassembled without loss or change of tone.

PRICE (Standard Model) Each **\$4.00**

ADJUSTABLE CALL

No. B-4—OLT'S ADJUSTABLE GAME AND BIRD CALL is made of select polished hard rubber. A convenient nickel plated Tone Slide which can be shifted in a second produces an almost endless variety of realistic imitations. Ideal for nature lovers, Boy Scouts, hunters, and all who wish to have the added advantage of having a number of imitations of wild birds which can be produced on one call just when you want it — OLT makes the only adjustable Game and Bird Call in the world.

PRICE Each **\$3.50**

DUCK CALL

No. C-3—OLT'S NEW IMPROVED MALLARD AND DUCK CALL is a compact and hand-somely designed pocket-size Call. Precision made. Has the new Olt feature of "screw-in" assembly which makes it easy to take apart, clean, and reassemble quickly without loss or change of tone. The choice of the most discriminating duck hunter who wants the "true-life" tone of a wild mallard duck built right into a call.

PRICE (Standard Size) Each **\$3.00**

CROW CALL

No. E-1—OLT'S PERFECT REGULAR CROW CALL is the grand favorite of thousands for luring the wild and wary crow within gunshot range of their blinds. Made of fine polished hard rubber throughout—reed is held securely in place between two hard rubber lips which constitute the mouthpiece. Wide groove in reed base eliminates possibility of reed sticking. Immune to climatic conditions. Will not become out of tone unless mouthpiece is removed. Blows with extreme ease. Excellent tone, raucous and far carrying. Lightweight, easy to hold in mouth on long shoots. Vest pocket size.

PRICE Each **\$2.00**

Nos. (A)	3	4
Size, inches	5 1/8 x 1 5/8 x 1 1/2	5 1/4 x 1 11/16 x 1 1/2
Each	\$1.90	\$1.90

HAWKINS

This model Recoil Pad is constructed to move the gun straight back. Size 5 1/2 inches long, 1 3/8 inches wide, 1 1/8 inches thick. Can be trimmed down to 4 3/4 inches long. Complete with screws. Model 32 (A) Each **\$2.25**

SPONGE RUBBER

- (A) Single Ply Sponge Rubber Pads—3/4 inch thick.....Each **\$2.10**
- (A) Double Ply Sponge Rubber Pads—1 inch thick.....Each **2.85**

ANTI-FLINCH

There will be no Kick Coming if you use Anti-Flinch Recoil Pad. Made of best grade live rubber vulcanized on black hard rubber base plate. Oblong holes through rubber, slanting to an angle of 45 degrees in line with stock, eliminates upward whip of muzzle and takes up the recoil.

Anti-Flinch Recoil Pads (A) Each **\$3.90**

REMINGTON HAND TRAP

With an inexpensive Remington Hand Trap, the thrilling sport of trapshooting can be practiced any time and anywhere. Throws targets at any angle. Crossing birds, incomers or fade-aways. Slow targets for beginners. Fast twisters for experienced shooters. Little throwing effort required. Weighs only 13 ounces. Fits into handbag. Hardwood, non-slip handle. Sturdy coiled flexible ferrule. Fits snugly in the hand.

Remington Hand Traps (A) Each **\$6.30**

FLYING TARGETS OR CLAY PIGEONS

Black color, with yellow dome for good visibility. For use with Target Traps. Carefully packed to minimize breakage in transit.

Flying Targets Per Carton **\$3.95**

Single cartons contain 135 only.

GUN OILS

HOPPE'S NITRO POWDER SOLVENT

The original and dependable preparation for necessary daily use in the proper cleaning of all firearms after firing. Positively prevents rust, and keeps the bore clean and bright. Use it properly and it will do everything that is claimed for it. One size only—2-oz. bottle—never sold in bulk.

- No. 9 Nitro Powder. Each **.68**
- 3-in-1 All Purpose Oil, 3-oz. cans **.30**

BARREL BLUE

Makes a real factory finish for looks and wear. No experience necessary to apply, can be used by any gun owner with best results.

Barrel Blue is regularly employed by expert gunsmiths and gun builders in their work.

Kit contains sufficient material for two rifles or equivalent.

2-oz. Kits (A) .. Each **\$1.30**

NIMROD GUN BLUE

No heat or tank required. Finishes by chemical action alone. Not a paint nor a lacquer. Made especially for touching up mars, scratches, etc., and bluing small parts. May be used for refinishing inexpensive guns where no factory job is expected. Kit is complete, containing plating powder, bluing chemical, oil, wax, steel wool, emery cloth and cotton.

Nimrod Gun Blue Kits (A) Price Each **\$1.30**

 PriceEach **.10**

No. **147**—(A) .22 caliber, twisted wire, bristle end, 31 inches long.
 PriceEach **.15**

PISTOL CLEANERS

Twisted wire, bristle end made for .32, .38, and .45 caliber.

No. **10**—(A) Weight each, 2 ozs..... Each **.20**

GUN CLEANERS

Cleaning Set—12 to 16, 20 and 410 or 44 gauge breech cleaning rod, with brass trimmings, scratch brush and wiper.

No. **95**—(A)Each **\$1.05**

Tomlinson

Nickel plated brass wire gauge pads, with two extra pads. When the pads become worn they can be easily removed by unscrewing the back cap.

No. **512**—(A) 12 gaugeEach **.85**

MARBLE'S JOINTED RIFLE RODS

Cut below shows steel connection. Roller-Bearing swivel shown above.

Nos. 9622 and 9728

Joints are very strong; will not break off in the rifle. It is as rigid as a one-piece rod—and stays so. The swivel is a steel roller-bearing—at the end of the rod—where it will prevent unscrewing the joints. This accurately fitted bearing withstands hard pulls and thrusts. The handle projects beyond ferrule and prevents marring of muzzle. Furnished with jagged and slotted tips and bag.

No. **9622**—.22 and .25 caliberEach **\$2.20**
 No. **9728**—.28 caliber and upEach **2.20**

One in a sack.

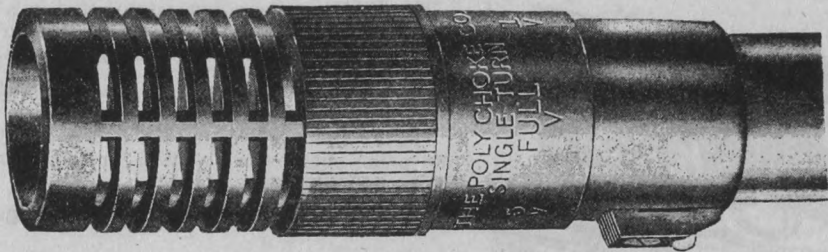

RIFLE CLEANING BRUSHES

No. **246**—Bristle brush, twisted wire, brass shank, .22 to .50 caliber.
 PriceEach **.25**

No. **246B**—Brass wire brush, twisted wire, brass shank, .22 to .50 caliber.
 PriceEach **.25**

POLY-CHOKE

Remember that "The Little Man With 9 Guns" who owns a Ventilated Poly-Choke controls the only versatile and extemporaneous choke regulating device, plus recoil absorber available at any price.

VERSATILE—Because by the twist of the wrist he has a gun choked for any game, any load or shot size, any distance or condition any place.

EXTEMPORANEOUS—Because without warning or notice he can, quick as a flash, transform his gun to meet the conditions that may arise any time.

SELF CONDITIONED—No tools or tubes to carry and change.

The ventilated ribs disperse the gases after the gases have formed the shot charge and it is on its way with all the power behind it where it belongs.

Just send to us by parcel post, insured, the barrel only from any 12, 16 or 20 gauge gun and we will do the rest. We pay postage on barrels both ways for Poly-Choke installations only. We must have barrels to adapt Ventilated Sleeve to Standard Choke.

Ventilated Poly-Choke, installed	Each	\$22.75
Standard Poly-Choke, installed	Each	17.75
Ventilated Sleeve only	Each	8.75

----------------------	------	---------------

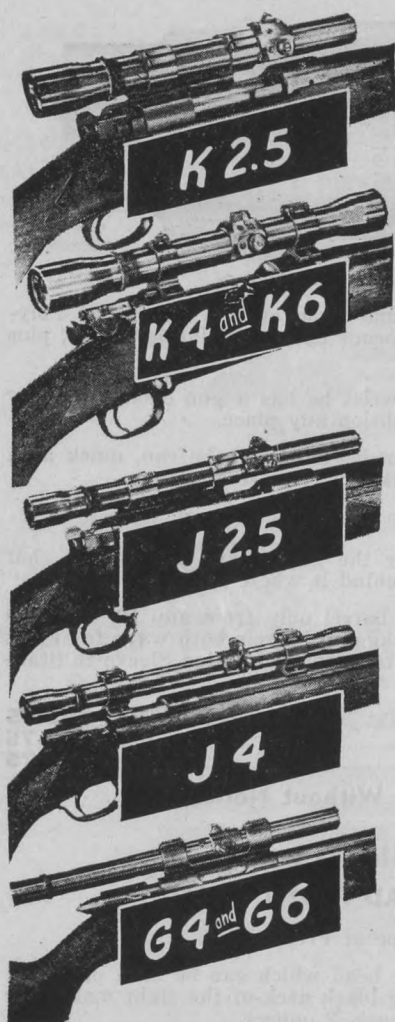

When ordering, always specify Make, Model and Caliber of Rifle.

REAR SIGHTS

When ordering Rear Sight, give Make and Model Number of Rifle.

Prices on application.

WEAVER SCOPES AND MOUNTS

The K2.5 has large lenses mounted in a 1-in. tube which gives larger field of vision and gives quicker aiming at running targets.

K2.5—Scope less mountsEach **\$53.50**

The K4 has even larger lenses than the K2.5 and picks out obscure targets in deep dusk as easily as in mid-day.

K4—Scope less mounts.....Each **\$64.00**

The K6 is ideal for long range shooting and varmintier with its 6 power lenses.

K6—Scope less mounts.....Each **\$69.25**

The J2.5 is ideal for all-around shooting at big and small game. It is easier to use and more accurate than metallic sights.

J2.5—Scope less mountsEach **\$31.95**

The J4 is preferred where the shooting is over 150 yards. The magnification is suitable for the greatest of precision shooting.

J4—Scope less mountsEach **\$39.25**

The four power model G4 and the six power model G6 are especially designed for .22 rim fire rifles. G Scopes equipped with N Mounts at no extra charge.

G4—ScopeEach **\$13.50**

G6—ScopeEach **\$17.85**

Range Finder Reticule for K Scopes.

Each **\$6.50**

Dot Reticule for K Scopes.....Each **9.50**

“U” Mount (Top or Side) for K Scopes.

Each **9.35**

“Q” Mount (Top or Side) for J. G.

ScopesEach **8.50**

“N” Mount (Side Bracket) for J. G.

ScopesEach **2.95**

THE NEW WEAVER DETACHABLE MOUNTS

Weaver detachable mounts use a V locating surface combined with an angular wedge surface that binds the V's of the base and upper parts together to form a solid rigid unit. V locating surfaces are the most accurate known and assures perfect precision in returning the scope to the rifle. By having extra bases mounted on your different rifles this means that you can use your scope on one or more rifles whenever you wish.

No. **R191**—Complete Detachable Mount Top or Side, 1-in. or ¾-in. Each **\$13.45**

No. **R190**—Extra top brackets for either top or side bases.....Each **11.95**

No. **R189**—Extra bases for top or side mounting.....Each **1.50**

FISHING HINTS — WHEN, WHERE AND HOW

LAKE FISHING.—Game fish in lakes, Pickerel, Pike, Bass, Muskie, Trout, Salmon, etc. feed on and attack moving natural food, such as minnows, crawfish, crabs, mice, bugs, water spiders, etc.

Feeding fish in lakes are usually found among or close to rocks, stumps, lily pads, moss, etc. Cast or troll across the feeding grounds for best results.

STREAM FISHING.—Game fish in streams are usually found with their heads up stream watching for minnows, crabs, mice and other food to be carried down to them by the current.

When casting for stream fish, it is advisable to cast the lure across the stream, allowing it to be carried down stream, while reeling slowly is most successful.

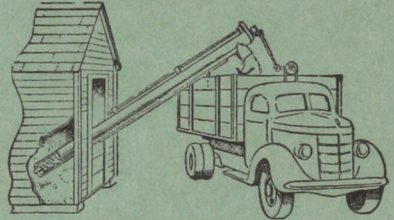

BEST HOURS FOR FISHING.—The early morning and the late afternoon are excellent hours for surface fishing. During the middle of the day game fish seek the shaded spots in deeper water, and deep fishing as a rule is best.

The weather and climatic conditions early or late in the season often alter these general rules.

We are Distributors for
The New Improved Truck-Type
"SCOOP-A-SECOND"
 and its big brother
The New Portable
"SCOOP-LOADER"

Designed and manufactured
 by:
H. BOBROWSKI & COMPANY
 Morris, Manitoba.

No. 200T—TRUCK TYPE

OVERALL LENGTH: 15' 9"

PORTABLE MODELS

20 Ft., 24 Ft. and 30 Ft.

**Easy Lifting Low Mounted Crank
 and Adjustable Motor Base**

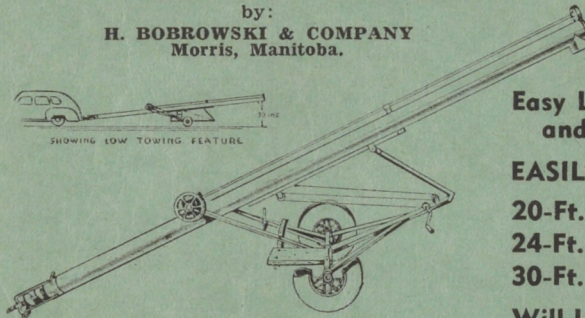

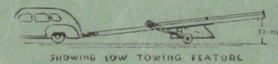

EASILY ADJUSTABLE in Height:

20-Ft. Unit Raises 12 Ft. High

24-Ft. Unit Raises 18 Ft. High

30-Ft. Unit Raises 24 Ft. High

**Will Load or Unload 800 to 1200
 Bushels per Hour**

Can be powered with air-cooled or water-cooled gas engine or electric motor if power is available. Power required: For 20-ft. model 2 to 3 H.P.; 24-ft. model 3 to 5 H.P.; 30-ft. model 4 to 6 H.P. gas engine. **SPEED:** Drive shaft should travel 400 to 450 R.P.M. under load. The bevel gears run in gun oil in the gear housing. These Loaders are capable of loading or unloading 800 to 1200 bushels per hour.

The three well known models which are extensively used in Canada and the U.S.A. are the most efficient type of **GRAIN MOVERS** on the **WORLD'S MARKET**. Either model will speed-up the problem of moving any type of grain, **LOADING** or **UNLOADING**, at a minimum cost, and they are also built to last longer when in constant hard use.

They are built for best performance at low operating cost. Fewer working parts, and less power required. The portable model can be easily attached behind car, truck or tractor for use anywhere. Can be easily raised or lowered by means of a cable and crank. The light-weight streamlined construction permits fast, efficient one-man handling for a quick set-up.

The truck type is fitted with a 6-inch auger into a 7-inch steel housing, and the Portable with a 5-inch auger into a 6-inch housing. Both augers and housings are of heavy duty material. The superior factory construction and quality materials in our units provide greatest strength, efficiency and capacity—make it light to handle and move, yet rugged enough for years of hard usage and satisfactory service.

Advanced Engineering, Extensive Research and our Practical Features make our Grain Movers efficient, simple and foolproof. These are your best assurance that no other unit can so fully satisfy, so fully save and serve. Thousands of satisfied users are our best recommendation.
