Falcon CYCLES

In response to many requests from our Dealers, we have arranged with leading Italian Component Manufacturers — famous names such as Campagnolo, Clement, Cinelli and others — to carry stocks of parts for sale to the British market.

We shall endeavour always to have available ample stocks to meet seasonal demands and shall continue to add additional lines to the range.

In addition to the parts we import, you will see that we also offer WHEELS which are built in our Falcon Factory at Barton-upon-Humber; the special Falcon Racing Wheels can be made up with any type of Campagnolo Hub and Weinmann or San Remo Rims.

Inside the back cover you will see listed the new Falcon self-adhesive Name Motifs; these will improve your old machine — they are standard on many new Falcon models.

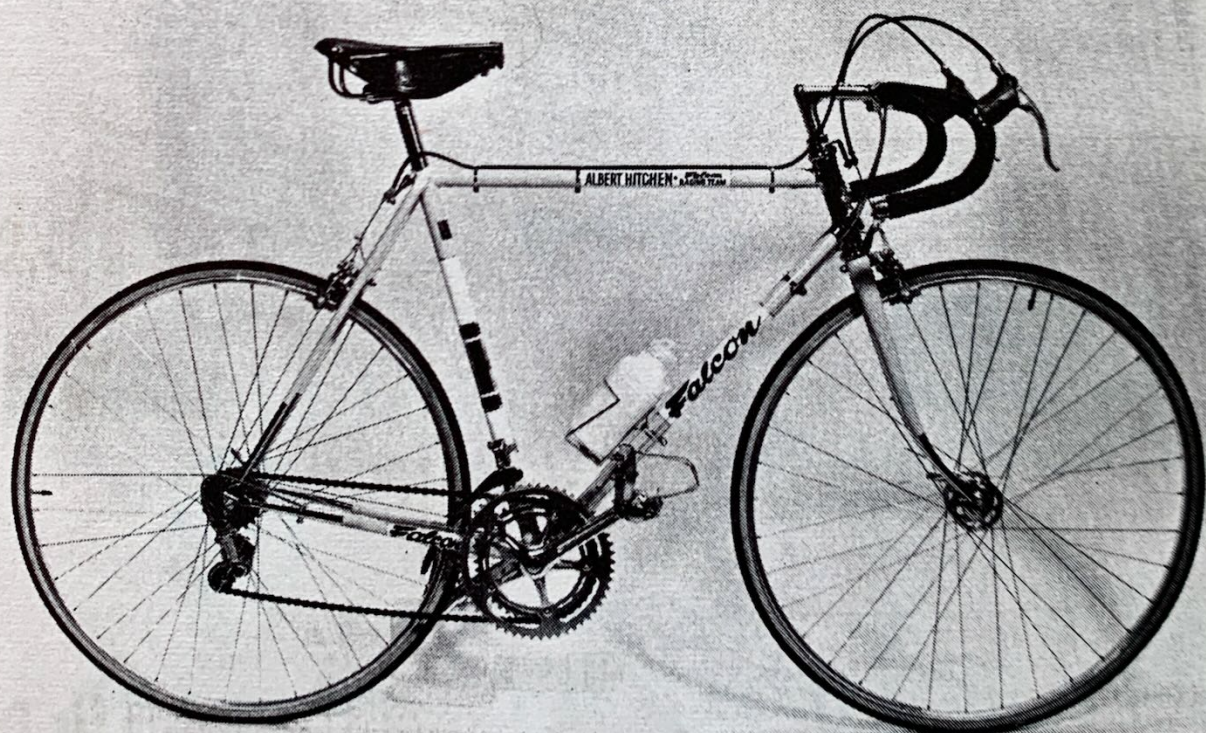

The Falcon range of FRAMESETS appear; also replacement FORKS (see pages 12 and 13).

If you are in need of any special lightweight replacement parts and are unable to obtain them, write direct to:-

FALCON LIGHTWEIGHT CYCLES,
MARSH LANE,
BARTON-UPON-HUMBER, LINCOLNSHIRE.
Tel: Barton-upon-Humber 2268/9.

MODEL 76 — SAN REMO EQUIPE

As used by Falcon Racing Team

Specification:

San Remo Equipe Frameset.
