Falcon Cycles are delighted that you have wisely selected our brochure to enable you to choose a quality British built cycle.

We, at Falcon, have been manufacturing cycles for almost one hundred years, always developing our range, introducing new designs, materials and manufacturing techniques, combining the best technology in hand building and production methods.

In designing the 17 different models illustrated in this new Falcon brochure we have carefully selected their sizes, colours, gearing and specification to afford you and your family a tremendous choice of over 100 classic cycles all built with quality components. Excellent in appearance, performance and quality, they represent real value for money. Choose to suit your individual requirements and enjoy trouble free riding on a superb Falcon cycle.
