WORLD CLASS 1983

pro class^{T.M.} frame set

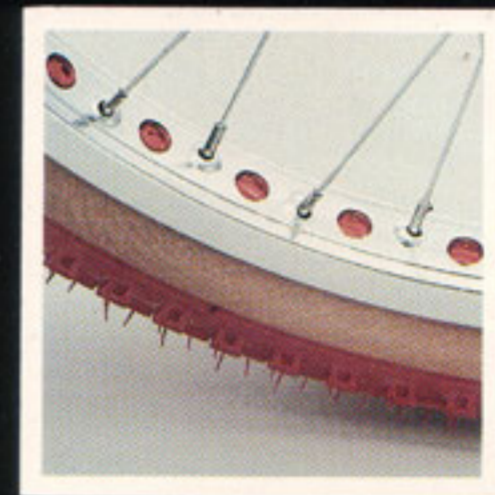

Too light, too fast, too trick to be anything but "PRO CLASS"™ by Mongoose®. The PRO CLASS™ frame set is composed of the 3¼ lbs. PRO CLASS™ frame and 1½ lbs. PRO CLASS™ Fork, heliarc welded of super light and super strong 4130 chromoly. Finished in sleek black chrome or polished showchrome.

Performance, style, lightness, everything a rider needs to be a part of the "PRO CLASS"™, by Mongoose®.

pro class^{T.M.} wheels

The patent pending PRO CLASS™ Wheels™, by Mongoose®, the lightest, flashiest 20 X 1.75 alloy rims ever made. A full 4 ounces lighter to give you warp speed acceleration. Interchangeable mylar foil rim liners add color, style and class to your bicycle.

Performance?
Just ask one of the
Factory Mongoose® Pros.

PRO CLASS™ bicycle

Too light, too trick, too fast to be anything but Pro Class™ by Mongoose®. The ultimate bicycle combining the best performance equipment for the most speed, lightness, strength and value. The heart of the Pro Class™ is the superlight 3¾ pound Pro Class™ Frame and the 26 ounce Pro Class™ Fork in electroplated black chrome. Add, hi-torque 180 mm chromoly cranks, SR alloy platform pedals, pro-size Pro Class™ Handlebars and trick Pro Class™ II Wheels* all in sharp good looking chrome. Nothing but class for the Pro Class™ bicycle. Pro Class™ frame and fork sets are also available separately for custom building in either electroplated black chrome or high polished show chrome.

Pro Class™, by Mongoose®, when only the best will do.

PRO CLASS™

PRO CLASS™ wheels*

The patent pending Pro Class™ Wheels,* by Mongoose®, the lightest flashiest 20 x 1.75 alloy rims ever made. A full 4 ounces lighter to give you warp speed acceleration. Interchangeable mylar foil rim liners add color, style and class to your bicycle.

Performance? Just ask one of the Factory Mongoose® Pros.

PRO CLASS™ I
Features bright silver electroplated Pro Class Rims and threaded Silver hub with heat treated 3/8" axles.

PRO CLASS™ II
(Not Shown)
Feature chrome plated sealed bearing hubs, chrome double butted spokes and polished chrome alloy Pro Class™ II rims.* Even the spoke nipples are aluminum for extra lightweight and then black anodized for good looks. Pro Class™ II Wheels*, the ultimate in performance and style.

Tires, tubes and freewheel, shown, are available separately.

*Patent Pending B.M.X.® Products, Inc.

supergoose®

Light, strong and fast. Supergoose®, ready to race and win with the polished showchrome chromoly frame and chromoly Team Mongoose® fork. Lightweight skinwall tires, the new Alloy PRO CLASS™ Wheels*, alloy platform pedals, high luster stainless steel handlebars and full clamp stem keep you going fast and looking good. Supergoose®, a super bike for super racing.

*Patent Pending B.M.X.® Products, Inc.

california special™

What's special about the Mongoose® California Special™? Everything! Looks, equipment and reliability. It features the famous reliability proven, Mongoose® chromoly mainframe in bright chrome. The new high performance Alloy PRO CLASS™ Wheels*, skinwall tires and quick change sprocket make it much more than an ordinary BMX bike. Stainless steel handlebars and full clamp stem add extra good looks and class. But, the kicker, it comes complete with a set of nylon Mongoose® Pro Series™ pads to make you street stylish and track safe. Available in chrome with red, blue or black accessories.

*Patent Pending B.M.X.® Products, Inc.

Chrome Frame/Red Alloy PRO CLASS™ Freewheel

White Frame/Red Tuff II™ Freewheel

mongoose®

Now, Mongoose® performance, value and dependability are yours with a complete selection of wheels, colors and brakes. Sound complicated? It's not . . . First, choose one of the famous Mongoose® frames, featuring a chromoly mainframe, in red, white, blue, black or chrome. Next, choose one of five wheel styles, economical Heavy Duty Wire wheels, colorful Nylon Mongoose® wheels, Nylon Tuff II™ wheels, flashy Motomag II®

wheels or the new Alloy PRO CLASS™ Wheels*, by Mongoose®. Each wheel style is available with either freewheel/handbrakes or coaster brakes (Alloy PRO CLASS™ Wheels* in freewheel only). One more choice . . . pick your wheel color. Each wheel style is coordinated in red, blue, yellow or black to match, contrast or highlight your frame. Simple! How about a red Mongoose® frame and red Motomag II® wheels? Or, a chrome Mongoose® frame and yellow Tuff II™ wheels? The choice is yours.

*Patent Pending B.M.X.® Products, Inc.

Black Frame/Yellow Motomag II® Freewheel

Blue Frame/Blue Heavy Duty Wire Freewheel

team mongoose®

Competition and performance equipped for the racer who prefers anodized three piece alloy cranks. Featuring a padded suede saddle, dual hand brakes, stainless steel handlebars, full clamp stem, the new Alloy PRO CLASS™ Wheels* and alloy platform pedals. Available in red or blue and in show chrome with red or blue accessories.

*Patent Pending B.M.X.® Products, Inc.

minigoose™

Full size Mongoose® performance and reliability is scaled down in the chromoly mainframe Minigoose™. Tough knobby tires and quick stopping Heavy Duty Coaster Brake wheels make this the perfect "first 20" bike. Available in chrome with black accessories.

two*four™ two*Six™

Mongoose® 24" and 26" Cruisers are designed to fit the 'taller folk' who understand quality and demand performance. Track-ready equipped with dual handbrakes, freewheel system, stainless steel handlebars and the new alloy platform pedals. A race track proven winner or state-of-the-art recreational cruiser. Two/Four and Two/Six Cruisers are available in show chrome with red or blue accessories.

mitigoose™

Mongoose® quality and styling, engineered into a 16" wheeled sidewalk bicycle. The imported Mitygoose™ features one piece steel cranks, tubular fork and rugged knobby tires. Accepts training wheels. Available in red, blue and chrome.
