

Vixen

'Ideally suited to town existence. An extremely handsome frame which is very well finished - specification is consistently top class. Much admired for its great looks - certainly one of the prettiest bikes through our offices for a long time - and its no-messing performance.

Ideally equipped to cope with city streets but gives a good off-road ride as well. THE VIXEN IS AN ABSOLUTE JOY' *BICYCLE Magazine*

Muddy City

'A smooth lively ride giving the rider a feeling of confidence that whatever the situation he will stay mounted' - **TIME OUT**

'Definitely worth a look' - *BICYCLE BUYER'S BIBLE*

'All the extras for the street' - *BICYCLE ACTION*

ALL MUDDY FOX bikes are fully tested and manufactured to meet all current Federal, State, CPSC and BS6102 safety standards. Our policy is one of continuous development and improvement so listed specifications are subject to change without notice. The tensile strength of all Muddy Fox frames are even greater than that of their forks ensuring minimum damage in the event of a severe head-on collision.
