

# OVERBURY'S MOUNTAIN BIKES

—THE BEST VALUE IN BRITAIN TODAY—

OVERBURY'S has been a specialist cycle shop since 1900 and it remains a family business continuing to serve the needs of the modern cyclist. We are keeping abreast of the very latest developments in cycling by proudly introducing our new range of OVERBURY'S MOUNTAIN BIKES.

The 3 models have been expertly designed with the utmost care and attention to detail using the best British materials available and hand-crafted by Reynolds 753 approved builders. Their inherent quality is most apparent when you view and ride the bikes; the FELL RIDER, PEAK FINDER and CROSS FELL all combine complete ruggedness with the reliability and efficiency of the finest mountain bike equipment: it is for these reasons that our Mountain Bikes have been selected by Rupert Rumney and Michael Fairbairn for their 4000-mile expedition around India.
