THE TOTAL CONTROL

SIS

Total Control SIS shifting. The Shimano Index System comes to the all-terrain bicycle. SIS eliminates mis-shifts and the need to fine-tune the derailleur. Now you can shift quickly, precisely, and safely even in the roughest terrain, without losing concentration.

biopace II

The computer-designed shape of Biopace II chainwheels makes more efficient use of energy, especially in the cadences used by off-road cyclists. Hill climbing is easier too. Total control is further enhanced through new innovations that eliminate many of the shifting problems of triple chainwheels.

CONTROL SYSTEM

U-Brake

Total Control in braking performance is realized with the New Deore-XT U-Brake. Used together with the New Deore-XT front cantilever brake, the chainstay-mounted U-Brake is an advanced design that sets a new standard in braking performance for the MTB.

**PowerWasher
PW-MT30**

Introducing the new PowerWasher PW-MT30. The most powerful power washer ever. With 3000 PSI and 2.5 GPM, it's the most powerful power washer ever. It's the most powerful power washer ever. It's the most powerful power washer ever.

Specifications

PowerWasher PW-MT30. The most powerful power washer ever. With 3000 PSI and 2.5 GPM, it's the most powerful power washer ever. It's the most powerful power washer ever.

Model	PW-MT30
Pressure (PSI)	3000
Flow Rate (GPM)	2.5
Motor	1/2 HP, 115V, 60Hz
Weight	15 lbs
Dimensions (L x W x H)	18 x 10 x 10
Warranty	3 Year

**PowerWasher
PW-MT30-02
PW-MT30-08**

The new PowerWasher PW-MT30-02 and PW-MT30-08 are the most powerful power washers ever. With 3000 PSI and 2.5 GPM, they're the most powerful power washers ever. They're the most powerful power washers ever.

Attachments

The new PowerWasher PW-MT30-02 and PW-MT30-08 come with a variety of attachments. These attachments are designed to help you clean different surfaces. They're the most powerful power washers ever.

**PowerTransfer's New Power Transfer
PC-MT30 100-MT30**

PowerTransfer's new Power Transfer PC-MT30 100-MT30 is a complete drivetrain system that includes the crank, chainrings, pedals, and cassette. The system features a lightweight aluminum crank, a 100-tooth chainring, and a 10-speed cassette. The system is designed for use with a Shimano 10-speed rear derailleur and a Shimano 10-speed front derailleur. The system is also compatible with Shimano 10-speed shifters and a Shimano 10-speed hub.

Specifications:
 Chainring: 100 teeth
 Cassette: 10-speed
 Crank: Aluminum
 Pedals: Shimano SPD
 Weight: 1.8kg

**PowerTransfer
CR-MT30**

PowerTransfer CR-MT30
 The PowerTransfer CR-MT30 is a complete drivetrain system that includes the crank, chainrings, and pedals. The system features a lightweight aluminum crank, a 100-tooth chainring, and Shimano SPD pedals. The system is designed for use with a Shimano 10-speed rear derailleur and a Shimano 10-speed front derailleur. The system is also compatible with Shimano 10-speed shifters and a Shimano 10-speed hub.

Specifications:
 Chainring: 100 teeth
 Crank: Aluminum
 Pedals: Shimano SPD
 Weight: 1.8kg

Model name **EL-NET30**

Plastic sprocket for
freewheel mechanism. The
freewheel is made from
aluminum alloy. The
sprocket is made from
steel and is equipped with
a 16-tooth sprocket.
Compatible with Shimano
cassette. 16 teeth.

Specifications

Model Name: EL-NET30
Material: Aluminum alloy
Weight: 1.2 kg
Color: Black
Sprocket: 16 teeth

Model name **BR-NET30**

Lightweight design with 26mm
diameter wheels and 26mm x 1.5
inch tires. The frame is made
from aluminum alloy. The
fork is made from steel. The
seat is made from plastic. The
pedals are made from steel.
Compatible with Shimano
cassette. 16 teeth.

Model name **BR-NET31**

A compact design with 26mm
diameter wheels and 26mm x 1.5
inch tires. The frame is made
from aluminum alloy. The
fork is made from steel. The
seat is made from plastic. The
pedals are made from steel.
Compatible with Shimano
cassette. 16 teeth.

Specifications
Model Name: BR-NET31
