

**CLAUD BUTLER**

*The Ultimate Bicycle*

## Dalesman

The Dalesman, a tradition among touring bicycles, with a specially designed touring frame and fork, in Reynolds 531 ST tubing, an essential for long distance touring.

Campagnolo hubs, specialised tyres and saddle, Esge mudguards, Shimano index shifting gears are but a few of the many quality components found on the Dalesman.

## Regent

Featuring a top quality handbuilt frame and fork, built with Reynolds 531 ST tubing, the Regent has most of the features that you will find on touring bicycles costing far more money.

Shimano index shifting gears, give precise gear change and wide ratio so you can tackle all those difficult hills.

It also features powerful cantilever brakes, Wolber M58 wheels with Wolber Renface touring tyres, and a full complement of other essential extras.

# Reynolds Tubing

Because Claud Butler build the best, the range incorporates the best tubes in the world – from Reynolds, who have won more Tour de Frances than any other tubing in the world, including Greg Lemond's successful ride in 1986.

You'll find Reynolds tubing to match your needs to provide ultra lightweight with maximum strength for the best possible performance.

All Reynolds tubes are double or single butted in a process that creates a stronger, lighter frame.

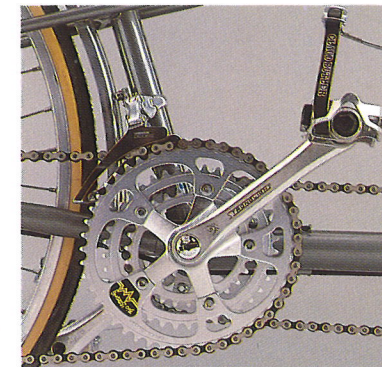

### 531 Special Tourist Specification

- Manganese molybdenum alloy frame tubes throughout with 802 N/mm<sup>2</sup> tensile strength
- 15% stronger 'after brazing' than competitive materials
- Double butted main tubes for strength and lightness
- Reinforced down tube for touring performance
- Reynolds 531 taper gauge fork blades for strength and resilience
- Manganese molybdenum seat and chainstays
- Standard taper seatstays and round oval round chainstays
- Reynolds transfer

### 531 All-Terrain Specification

- Manganese molybdenum alloy frame tubes with 802 N/mm<sup>2</sup> tensile strength
- Double butted main frame tubes
- New profile reinforced fork blades for increased stress resistance
- Ultra-stiff 18 gauge 'Crank' style chainstays for efficient power transfer
- Standard taper seatstay ■ Reynolds transfer

## Majestic Tandem

Built with Reynolds 531 tubing throughout the Majestic is capable of transporting two people in comfort and style, no matter what the distance.

For ease of operation, essential with the weight carried on a tandem, there is wide ratio Shimano index shifting gears and a Stronglight triple chainset.

For extra stopping power, Shimano front and rear cantilever brakes are fitted with the addition of an Arai rear drum brake.

## Matterhorn

*The Rolls Royce of all-terrain bicycles.*

*It has all the tradition of a Claud Butler but with all the latest design features you would expect on a bicycle of this class.*

*The Reynolds 531 fully lugged frame and the superb Shimano Deore XT group set help to put the Matterhorn in a class of its own.*

## Cape Wrath

*The Cape Wrath includes many of the latest design features in all-terrain bicycles.*

*A fully lugged Reynolds 531 frame, a Cro-Moly Unicrown fork and extra strength wheels mean the Cape Wrath is just as happy off the road as on.*

*The latest Shimano Deore group set with its Biopace chainset and 18 speed index shifting gears help to make the Cape Wrath a true winner.*

# The Ultimate Bicycle

*Claud Butler, the acknowledged brand leader in its field, a name synonymous with some of the world's greatest international, national and Olympic cyclists over the past 60 years.*

*We at Claud Butler have not only been handbuilding lightweight and touring bicycles to the very highest standards over this time, but are still carrying on this tradition today.*

*Very high standards of craftsmanship, meticulous attention to detail, a very stringent quality control of each process in manufacture, are all factors which put a Claud Butler above the rest.*

*Using only the Reynolds tubing, each frame is individually handbuilt with extreme care and attention, at our factory in the West Midlands.*

*Of course, only the best components available are fitted to a Claud Butler. Shimano index shifting gears for a positive and trouble free gear change, and cantilever brakes for extra stopping power, are both fitted throughout the range. Others include such famous brands as Cinelli, Campagnolo and Wolber.*

*For sheer quality, superb looks and the latest technology available, all will be found on a Claud Butler – simply the best.*

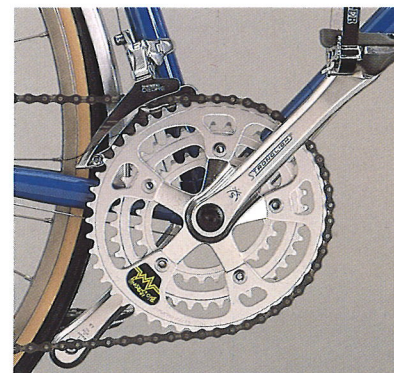

## Super Dalesman

*The ultimate touring bicycle, it will take you thousands of miles in both comfort and style.*

*It has a wonderful array of top quality features which include a Brookes leather saddle, pre-softened and essential to ensure the best possible ride on those long journeys.*

*As with all Claud Butlers the frame is built with Reynolds tubing throughout.*
