EXPLORER

"The Best Handling Mountain Bike in its class" - BICYCLE MAGAZINE

"The new Explorers are light years away from the originals. If you want to ride no hands - no problem. If you want to ride down the steps in the dark - do it on an Explorer.

I would go as far as to say this is the best handling Mountain Bike in its class. It coped well with ruts, loose gravel, boggy stuff and steep climbs (as well as steps) in the most predictable and comfortable way possible.

In conclusion: The Muddy Fox Explorer can only be described as a beautifully balanced bike." - BICYCLE MAGAZINE

LASER

Using Top grade 7000 Series Aluminum (far superior to the common 'Coke can' 6000 series), Muddy Fox are able to produce the slimmer, stronger, more aesthetic lightweight Aluminum MTB Laser.

Equipped with SunTour Accushift Index gearing system, Dia Compe brakes, Permalok headset, ALLTRAX HP tyres, Leather Saddle and all at a price way below other Aluminum mountain bikes.

Check out their specs and our prices - Nuff said.

SHUTTLE

'The Strongest Town-Bike Ever Made.'

Built to take on the potholes and trash of today's mean city streets the Shuttle is the answer to simply cycling from A2B. For those who have no intention of scaling the Eiger, the Shuttle is the ideal family bike.

Five Index Pre-Select gears will cruise you through town, U-brakes and cantilevers will stop you in emergencies. CITITRAX HP High Pressure Fat-tires will float over the rough roads yet keep you rolling with no vibration.

The Shuttle – The No Nonsense City Bike.

TRAILBLAZER

"Love at First Sight – I was dazzled"

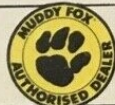

"A cross between a mountain bike, a touring bike and a cyclo cross bike – The frame, eighteen gears and braking system of a mountain bike. It has many braze-ons so that it can be easily equipped to a full blown touring bike. The bar end gear levers give it the potential of a cyclo cross bike..... It is unique." –Max Glaskin BICYCLE MAGAZINE
