March 1989

Dear Sir/Madam,

Thank you for your interest in our product.

Sorry no colour brochure available at the moment, but we hope the attached details will be of interest and help to you.

The colour of the cycle (or frameset) may be to your choice.

Epoxy Coating (in black, blue, red or yellow) ., Fleurescent Colours of Pink, Orange and Green, also a whole spectrum of the rainbow in stove enamelled finishes are available.

Some designs and paint finishes incurr extra cost.

The framesets may also be built with COLUMBUS O.R. TUBING throughout and also in the TANGE PRESTIGE TUBING (Heat Treated) throughout, if you require this. TANGE PRESTIGE would incurr another £100.00 per model.

Framesets are available if required.

531/COLUMBUS.....£280.00.

COLUMBUS O.R. THROUGHOUT....£295.00. PRICES INCLUDE V.A.T. & A HEADSET!

TANGE PRESTIGE THROUGHOUT...£380.00. MAX O.R. OVAL TUBE FRAMESET - £445.00.

SHIMANO COMPONENTS ARE FITTED ranging from the EXAGE MOUNTAIN ..DEORE....DEORE XT. and of course the NEW HYPERGLIDE SYSTEMS giving you 7 SPEED/21 GEARS with a fantastic gear change! These groups are known as the LX., DEORE 2 and DEORE XT2 and are now becoming more readily available. The prices shown overleaf on the DEORE and DEORE XT, should be current for the DEORE 2 and DEORE XT2 as well. We are hoping to produce a PIONEER LX model for approximately £550.00. - this features alloy components.

CAMPAGNOLO COMPONENTS OBTAINABLE IF REQUIRED.

Hoping this has helped - we look forward to hearing from you.

Yours faithfully

"OVERBURY'S"

### THE PIONEER

As enthusiastic off-road riders we were amongst the first to realise the limitations of the American designed imported bikes, and to enhance our off road pleasure we designed and produced bikes more suited to the British terrain and the Pioneer was born.

It was immediately taken up by Britains top riders and has since proved to be Britains most successful off-road bike.

#### Achievements to date:

NORBA CHAMPIONSHIPS

FAT TYRE 5 CHAMPIONSHIPS

MAN v HORSE v BIKE WINNERS

THREE PEAKS - BEST PLACED ATB 1986/7  
1st and 2nd

WORLD CHAMPIONSHIPS (in FRANCE) ...2nd BRITISH

The PIONEER is THE machine for the discerning enthusiast! Developed specifically for performance riding over the most difficult of terrain, this radical new design revolutionizes OFF-ROAD performance. The faultless construction of the lugless 531/COLUMBUS FRAME with its unique geometry and short wheelbase results in a rugged yet lightweight bike that will out-manoeuvre any other. The sloping top-tube gives up to 1 3/4" more clearance for safety and comfort and allows the saddle to be dropped right out of the way on those really fearsome descents!

The 12 3/4" high bottom bracket gives an extra 1" ground clearance for the pedals and chainset and the ultra-short chainstays give stunning traction and power transfer capabilities making unthinkable ascents rideable and leaving other mountain bikes spinning in the dirt!

The PIONEER is equipped with the superb SHIMANO EXAGE, NEW DEORE OR NEW DEORE XT groupsets, with sealed bearings throughout, and HEAT TREATED RIMS on the top model. Available in sixes 16 1/2" 18 1/2" 20 1/2" and 22 1/2" and is very competitively priced from £499.00.

PLEASE TELEPHONE FOR AN APPOINTMENT TO TEST RIDE.

The PIONEER - designed for people who ride to win!
