from recreation to racing...

*We cover a lot of ground.
1991*

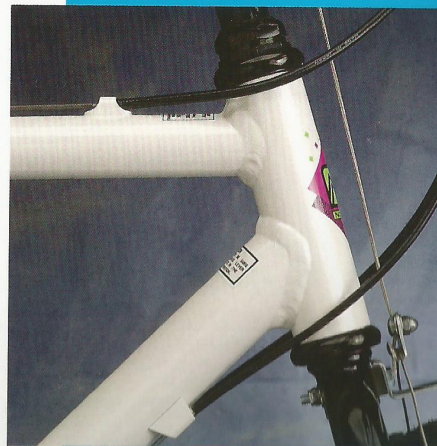

FRAME INFORMATION

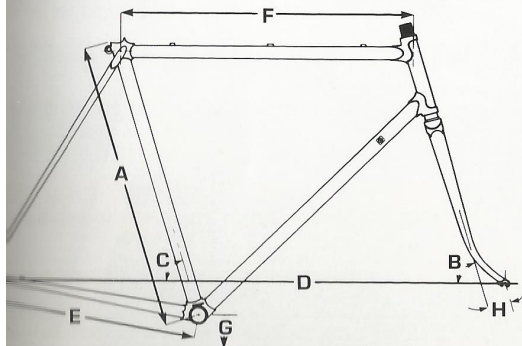

Top-tube mounted open cables reduce friction in the front and rear changer cables and result in increased power to the rear brake by reducing casing compression.

New Shimano Deore XT ST1 Rapid Fire levers with single step-down front shifting and the new Servo Wave brake mechanism for fast cable pick up and improved braking response.

Lightweight, durable T7000 aluminum tig welded off-road frame produces a very rigid, responsive ride. Oversize head-set for prolonged bearing life.

FRAME INFORMATION

outlined below is a brief description of the key characteristics affecting a bicycle's performance. Each model is specifically designed to meet the needs of its intended user.

The seat-tube length determines

the bike, as it governs the height of the top-tube from the ground.

The *head-tube angle* and *seat-tube angle* contribute to the control and responsiveness of the bicycle. Low angles generally produce a very smooth stable ride (especially at higher

bike capable of more technical riding (e.g. twisting trails, or high performance road riding).

The *wheel base* and *chain-stay length* also affect the handling of the bicycle. Generally, a long wheel-base or chain-stay produces a stable ride in addition to providing some road

more agile responsive feel.

Bottom bracket height governs the centre of gravity of the bicycle and determines overall ground clearance.

For more detailed discussion of frame characteristics, consult your local NORCO dealer.

NORCO . . .
from recreation
to racing we
cover a lot of
ground.

Our 1991 line represents our continued commitment to producing high quality value packed bicycles for the whole family. From sturdy 20" wheel children's bikes to hi-tech racing equipment, we cover the full spectrum.

We have continued to provide our customers with no holds barred high-end products like the 1991 Rampage. Crafted in Japan from lightweight Tange Prestige chromo-moly tubing, this race prepped unit features the latest shifting and braking innovations from Shimano.

Our children's line has been expanded to meet the needs of the active youth market, and we are pleased to present three new models in our Hybrid mountain-lite program.

Visit your local NORCO dealer today for all the

RAMPAGE PRESTIGE
Tested and
perfected for off-
road radicals.

The Rampage has been redesigned for 1991 and incorporates a longer top-tube and Tange Switch-blade forks. Featherweight, yet durable, this Tange Prestige frame delivers an agile, responsive ride. Key features include: new Deore XT Rapid Fire shifters with single step-down shifts, Servo Wave brake levers for faster cable pick up, Bullet proof Araya RM-17 rims and ultra aggressive Panaracer Smoke tires.

PAGE

PRESTIGE

MAGNUM
Master the
extreme.

This heat treated T-7000 tig welded oversized frame doesn't sacrifice strength or performance for weight reduction. Deore DX 21-speed Rapid Fire is equipped with Hyperglide shifting and round Superglide chainrings, durable Araya CV-7 welded rims with concave sidewalls for improved brake pad line-up, ground hugging Tioga Mud Dawg tires.

MAGNUM

SASQUATCH
Bred to shred.

The full Tange chromoly Sasquatch is built for the challenge and utilizes a sleek long radius tapered tubular fork. Note the refined Suntour XC LTD components featuring X-press below bar shifting, durable Accushift Plus freewheel cogs and powerful balanced response canti-levers. The gel saddle helps to reduce road shocks while the Panaracer Smokes are your assurance of unparalleled traction.

SASQUATCH

PINNACLE Potent!

Unique chro-moly main triangle with tapered oval tubes for increased lateral and fore/aft rigidity. The oversize headset increases bearing life by spreading the load over more balls and a larger surface area. Exage 400 21-speed Rapid Fire equipped for crisp responsive Hyperglide shifts. Complete with a deluxe SR "TCO" seatpost, comfortable gel saddle, tough Araya VP-20 alloy rims, and deluxe stainless spokes with quick release hubs.

PINNACLE

BIGFOOT

BIGFOOT
A bold performer

The all new Bigfoot boasts a Tange chromoly main triangle with rigid oversized tubular rear-stay. Equipped with Shimano crisp shifting 21-speed Hyperglide Exage 30 components. Adorned with a comfortable gel saddle and beefy SR "TCO" seatpost. Note the tough Araya VP-20 rims, aggressive skinwall tires, powerful cantilever brakes, and quick release front wheel for added convenience.

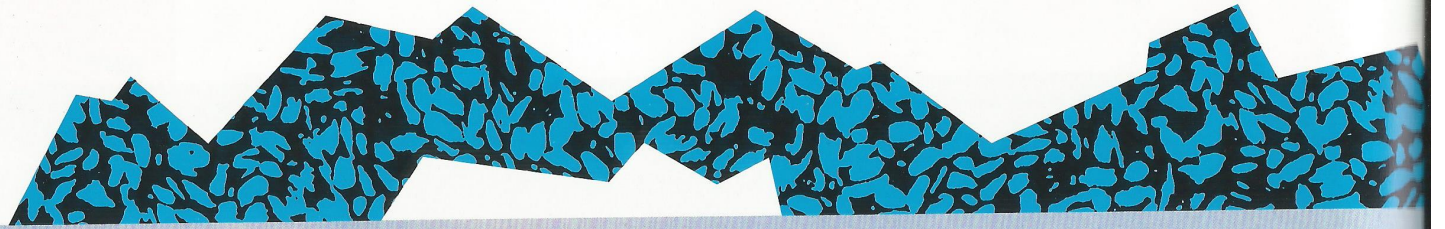

KOKANEE

Rugged chro-moly main triangle

1991 brings dramatic improvements to the Kokanee including: a Tange chro-moly main triangle, new fast back style seatstays, super stiff oversized chainstays and a long radius tubular fork. Open cable guides on the top-tube reduce brake casing compression and increase response. Shimano 200 21-speed Rapid Fire Hyperglide equipped. Durable Araya MP-22 rims. Available in four sizes and an array of hot new colours.

K O K A N E E

BUSH PILOTS

BUSH PILOT Captivating!

The 1991 Bush Pilot incorporates an oversized chromoly down-tube for increased strength and rigidity. Also new is the Shimano 200 21-speed rapid fire shifters, and inboard mounted rear U-brake on the smaller sizes for outstanding heel clearance. Additional key features include, light-weight Araya MP-22 alloy rims, flat racing style handlebar, quick release front wheel, and a rigid rear mono-stay.

KATMANDU Shimano rapid fire equipped

A new face in the Norco line. The Katmandu features include: a durable mountain frame and fork with added strength from chromo-moly down-tube, long radius uncrown forks, comfortable anatomical saddle, and durable Araya MP-22 alloy rims. Shimano has introduced rapid fire 21-speed shifting at a more economical price and Norco is pleased to offer this component group on the Katmandu. Available in four popular sizes.

KATMANDU

Reliable his and hers mountain bikes available in a wide selection of sizes and colours. Key features include: quality Sugino triple cranks, wide ratio 21-speed Shimano SIS gearing to flatten out the hills, smooth functioning Chang Star cantilever brakes, lightweight alloy rims, and a comfortable anatomic saddle. Check one out soon!

MOUNTAINEER
Comfortable
mid-rise riding
position

A popular economical bicycle complete with Shimano 18-speed Hyperglide gearing. Reliable Chang Star cantilever brakes with open top-tube cable for reduced casing compression and increased stopping response. Sealed mechanism hubs for increased bearing life, durable chrome plated rims and long wearing gumwall tires.

MOUNTAINEER

CHEROKEE
Value packed
enjoyment for the
whole family

Quality mountain style bicycles available in Mens, Ladies, Boys, and Girls models. All bikes feature Shimano Hyperglide gearing (Adults are 12-speed, children's are 6-speed). Quality, reliable side-pull brakes, comfortable mid-rise handle-bars, long wearing gumwall tires, and comfortable padded saddles.

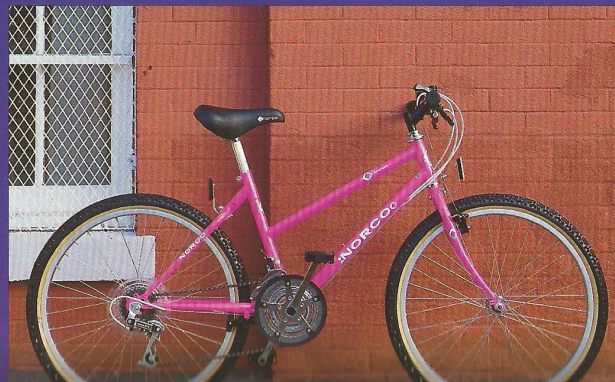

CHEROKEE

JAMMER

A breakthrough
in Junior bicycle
performance

Popular sloping top-tube junior mountain design with a deluxe rigid rear mono-stay. Norco is pleased to offer the Jammer in a girls model for the first time. These quality units share the following features: 18-speed Shimano Hyperglide gearing, lightweight Araya alloy rims, deluxe reliable smooth functioning Chang

JAMMER

**dependable
excitement!**

Our best selling junior bicycles feature hot new paint jobs and exciting new graphics. Shimano 12-speed Hyperglide equipped to help cover all types of terrain. The powerful Chang Star rear U-brake and front cantilevers utilize levers with reach adjusters for a custom fit to smaller hands. Also note the racing style handlebars and comfortable padded saddles!

**MICRO
MOUNTAINEER**

MICRO MOUNTAINEER
They look small
but they're
big on fun!

Durable Micro Mountain frames with lots of stand-over height for the younger mountain bike enthusiasts. Easy shifting Shimano 6-speed Hyperglide gearing. Reliable sidepull brakes with deluxe reach adjustable brake levers, long lasting gumwall tires and sturdy chrome plated mountain rims. See them soon at a Norco dealer near you.

TIER RA

TIERRA

Leave the traffic
jam behind

Top quality chromoly main triangle with tough chromoly unicrown fork, reinforced seat collar and rigid oversized rear stays. Dependable Suntour XCF 21-speed X-press below-bar shifting, with deluxe alloy crankset. Powerful low-profile Suntour cantilever brakes, Araya PX-45 hybrid rims, versatile Panaracer "38 Special" tires and comfortable gel saddle complete this value-packed unit.

ARCTIC

ARCTIC Tailored to your needs

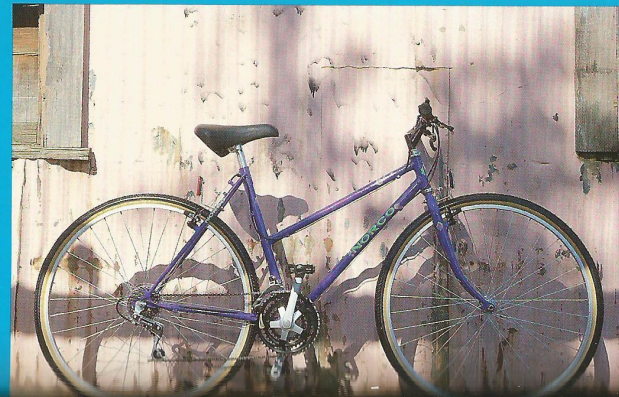

Mid-priced deluxe hybrid with chro-moly main triangle. Note the comfortable rise from the alloy stem, easy shifting Shimano 200 rapid fire 21-speed, Hyperglide gearing, rugged uncrown fork, and the quick release front wheel for added convenience. Durable Araya alloy 700C rims and high volume skinwall tires provide a smooth comfortable ride.

QUEST

QUEST Hassle free versatility

Economical his and hers mountain-lite style bicycles. Durable fully lugged frames with deluxe uncrown forks and open top-tube cable routing. The hi-rise stems with flat racing style bar provide a comfortable controlled riding position. Additional key features include: 18-speed Shimano Hyperglide gearing, reliable

EUROSPORT
Lean, mean
racing machine

Light-weight full chro-moly racing frame with a rigid Mangaloy fork. Available in a five size breakdown to come close to a custom fit. Positive shifting Shimano Exage 500 14-speed Hyperglide gearing with Bio-pace front cranks. Ultra powerful dual pivot SLR brake calipers with sleek Aero levers and deluxe Criterium bend bars. Tough Araya SS-45 alloy rims.

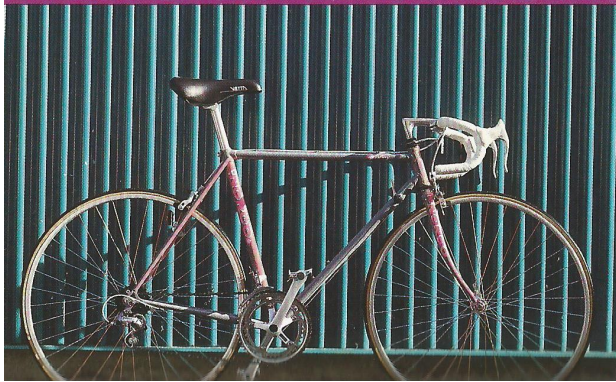

EUROSPORT

VICTORY

VICTORY
Lively response

This spunky entry level racing bicycle takes advantage of the crisp shifting Shimano Exage 400 14-speed Hyperglide gearing and SLR Aero brakes. Comes complete with lightweight Araya SS-45 alloy rims, low profile racing pedals complete with clips and straps, sleek Vetta Mundial racing

MONTEREY SL

MONTEREY SL
Affordable
performance
crafted in Japan

Economical recreation racing bicycle with durable Ishiwata chromo main frame. Suntour 14-speed Accushift index equipped. Durable Araya alloy rims with quick release hubs and long lasting Panaracer Dual tires. Responsive blaze side-pivot brakes with Aero levers and quick release for ease
