

DYNA-TECH

THE LIGHTWEIGHT STEEL FRAME OF EVERY DYNA-TECH BIKE IS JOINED BY LOW-TEMPERATURE BONDING TO MAKE IT UP TO 20% STRONGER THAN ITS COMPETITORS.

SO A DYNA-TECH TRANSFERS MORE OF YOUR EFFORTS TO THE WHEELS WHILE IT RESPONDS INSTANTLY TO YOUR EVERY COMMAND.

THE COMPONENTS ON A DYNA-TECH ARE AS ADVANCED AS THE FRAME; ENHANCING THE BOND BETWEEN RIDER AND MACHINE.

AND THE FINAL BEAUTY OF RIDING A DYNA-TECH IS YOUR CERTAINTY THAT THE CYCLIST NEXT TO YOU IS WORKING HARDER THAN YOU ARE.

DYNA-TECH ROAD AND OFF-ROAD BIKES RANGE FROM £450 - £1,300. FOR DETAILS OF YOUR NEAREST DYNA-TECH DEALER, PHONE 0898 100 712.*
