CONQUEST 45

THE PEAK RIDING EXPERIENCE.

You don't let anything stand in your way. No rock is too big to jump over, no path is too narrow to ride on. No matter how high your mountain, the 1991 RL Conquest 45 is ready to take you to the top. Now. The Paraplex frame design provides optimum tire and chainring clearance and brings the bike's center of gravity closer to yours. And the top-of-the-line components will satisfy your demand for the best. There's no finer Redline than this Redline.

COMPONENT SPECIFICATIONS

FRAME	Redline Paraplex ATB design, Tange double-butted, full chromoly
FORK	Tange single butted, ovalized blades, full chromoly

CHAINWHEEL	Sugino 46/36 alloy power ring, 24 stainless power ring
SHIFT LEVERS	Suntour AccuShiftPlus X-PRESS
CRANK	Sugino 170mm, 175mm alloy
TIRES	Fisher Fat Trak, 26 x 2.2, skinwall, black
RIMS	Ukai NMT-18, hard anodized, 32H, 26 x 1.50
HUBS	Suntour freehub, 32H, gray
PEDALS	MKS chromoly axle with toe clips & straps
SADDLE	Redline Lycra Gel, black
SIZES	Men's 15", 17", 19", 21"

COLORS Cobalt/JetStream, Moss/JetStream

CONQUEST 35

HIGHER, STEEPER, ROUGHER.

No matter how high you climb, you're still looking up, not back. Is there a higher mountain, a steeper trail, a rougher terrain? You've got to try it. You've got to tame it. The 1991 RL Conquest 35 is for you. It's form is balanced perfectly with function. The Conquest 35 is responsive, yet tenaciously durable. It's a blast to ride. It's hot.

CONQUEST 15

ON OR OFF THE ROAD.

Brand new for 1991, the RL Conquest 15 is equally at home careening around city street corners or leaping over rocks and shrubs. Ride it from the flatlands to the foothills to the mountains. And then take off. Full-featured, lightweight, and bulletproof, the Conquest 15 is quick, nimble, and ready to roll. And to top it all off, it packs what may be the best price/performance ratio in all of ATB.

COMPONENT SPECIFICATIONS

FRAME	Redline traditional ATB design, lugless, tri-moly
FORK	Uni-Crown, hi-tensile steel, ovalized blades
HANDLEBAR STEM	ATB flat-tapered, black ATB, cable through stem, black

HUBS	Quick-release front and rear
SADDLE	Redline Lycra, black
SIZES	Men's 15", 17", 19", 21" / Women's 17"
COLORS	Smoke Red, Smoke Blue

MOJAVE

THE FUN STARTS HERE.

Sure, we call them mountain bikes. And the 1991 RL Mojave is built to perform exceptionally on mountains and hills. But once you start, you'll want to explore new terrain, new environments. The desert, the plains, the woods—the 1991 RL Mojave will take you anywhere you want to go. Now then, where's that trail you always wanted to ride? Where's that mountain you wanted to climb? Where's that forbidden land you wanted to explore? Do it now.

COMPONENT SPECIFICATIONS

RL ROCKY TOP

"GO OUTSIDE AND PLAY."

Want to get your child out of the house more? Get him a 1991 Rocky Top. It's got five speeds and is loaded with guts and style. The guts? It'll take whatever abuse your kid can dish out and keep coming back for more. The style? These radical new colors practically glow in the dark.

COMPONENT SPECIFICATIONS

FRAME	Redline sloping frame design, lugless, hi-tensile steel, with cable guide under top-tube

RIMS	20 x 1.75 steel, 36H, chrome-plated
SADDLE	Redline, black
SIZE	Boys' 20"
COLORS	Neo-Red/Black, Neo-Green/Black

RL ROCKY TOP II

SCHOOL OF HARD KNOCKS.

Some people would argue that you can learn just as much out in the mountains, tooling around on an ATB, as you can sitting in the classroom. That real education comes not from listening, but from doing. Whichever side of the argument you're on, the 1991 Rocky Top II has you covered. You see, this 18-speed, 24-inch marvel is as great on the mountains as it is in the schoolyard.

COMPONENT SPECIFICATIONS

FRAME	Redline sloping frame design, lugless, hi-tensile steel, with cable guide under top-tube
FORK	Uni-Crown, ovalized, hi-tensile steel
HEAD SET	ATB chrome-plated
HANDLEBAR	Hi-tensile steel, flat-tapered, 560mm, black

CONQUEST 40

FRAME AND FORK

You want to build your own bike? A bike with components that match your demanding specifications, your exact riding style? Start with the Conquest Forty Frame and Fork as the foundation, and you know you can't go wrong. It has an advanced Paraplex frame design and beefy, ovalized fork. It also includes an oversize bead set and ATB stem, and a seat post with quick-release binder pin.

SIZES 17", 19", 20", 22"
COLOR Snow

CONQUEST 60AL

FRAME AND FORK

Aluminum. That's all you need to know. The same tested frame geometry, the same Redline quality, but now featherlight, for quicker quicks, more responsive responses, more absorbant shock-absorbing chromoly forks. The 60AL also comes with an oversize bead set and ATB stem, a seat post with quick-release binder pin, and a sealed bottom-bracket set. When you want to build it fast, build it on the 1991 Conquest Sixty-AL.

SIZES 15", 17", 19", 21"
COLOR Flight White

RL CROSSTOWN

FOR ALL THE RIGHT REASONS.

Ride for your health. Ride because it makes you feel so alert and alive. Or ride because it's good for the environment. Whatever your reason for riding, ride the new RL CrossTown. It has classic styling, with 18-speeds, top-end componentry, and comfort you won't find in other bikes. Be reasonable. Ride the RL CrossTown.

COMPONENT SPECIFICATIONS

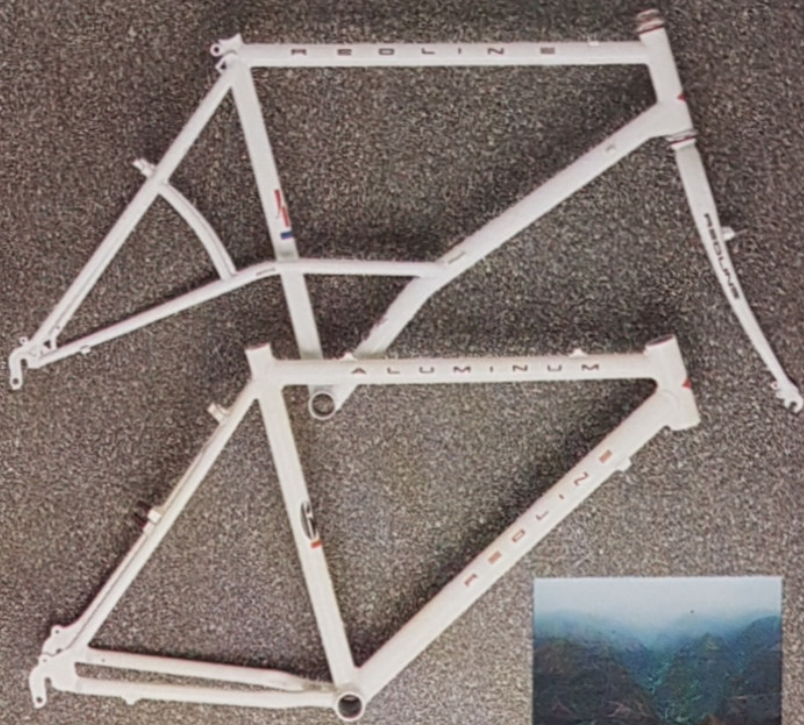

FRAME	Redline traditional design, tri-moly
FORK	Uni-Crown full chromoly, ovalized with forged ends
HEAD SET	Sealed tech. steel, chrome-plated
