

POWERLITE

1995 Catalog

P-61 AL - Dialed to take you to the head of the pack, the Powerlite P-61AL is the fastest bike ever designed for the track. 6061-T6 heat treated aluminum makes this USA made frame ready for whatever you throw its way. Componentry on this trick ride includes Powerlite butted chromoly Ahead fork, Powerlite Ahead alloy stem, alloy BMX Canti levers, Powerlite chromoly 3-piece crank, Powerlite chromoly CNC alloy sprocket, GT Sealed Bearing hubs, Doublewall Aluminum Rims, AA Pro Tires.

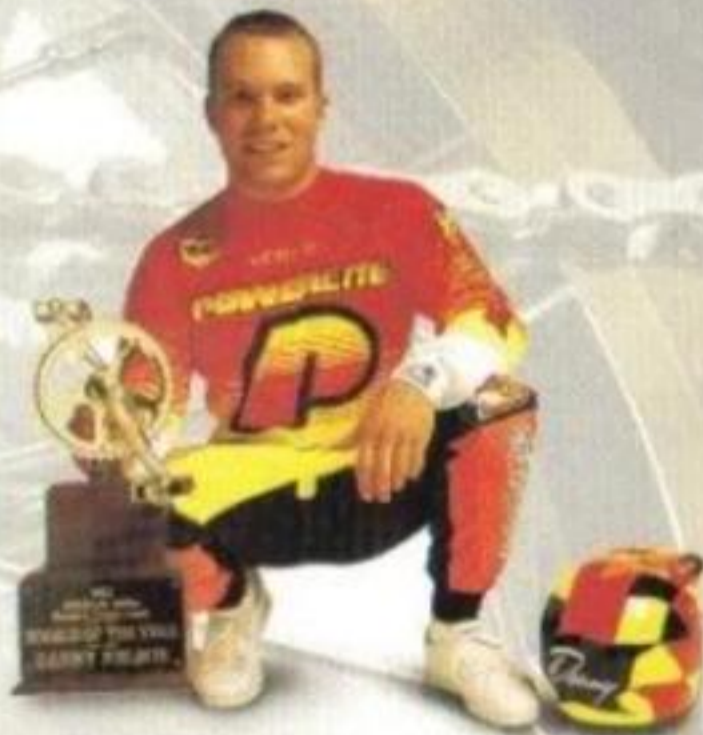

P-51 - This Powerlite features a new made in the USA, 100% chromoly frame with a 1-1/2" down tube. The P-51 comes loaded with the best in BMX including a Powerlite XL alloy stem, Weinmann 32 hole aluminum rims, cantilever brakes and Powerlite Pro handlebars.

P-61 AL frame kit - Features a 100% USA made aluminum frame, oversized chromoly fork, Powerlite A-Head stem, oversized headset, cantilever brakes and seat post. Look under one of the Powerlite factory riders for more details.

On the track or on the street the Gear Grinding Squad is in full effect. The squad knows you need the best equipment to go the distance. It's no doubt that Powerlite is their bike of choice. From the P-28 to the top-of-the-line P-61 AL, you can count on Powerlite for a U.S.A. made bike that can handle it all.

Danny Nelson -
1994 UCI BMX World Champion

The premier junior bike, the Powerlite P-47 starts with a Powerlite 6061-T6 heat treated aluminum frame and 100% chromoly fork. This frameset is the favorite among junior racers around the world.

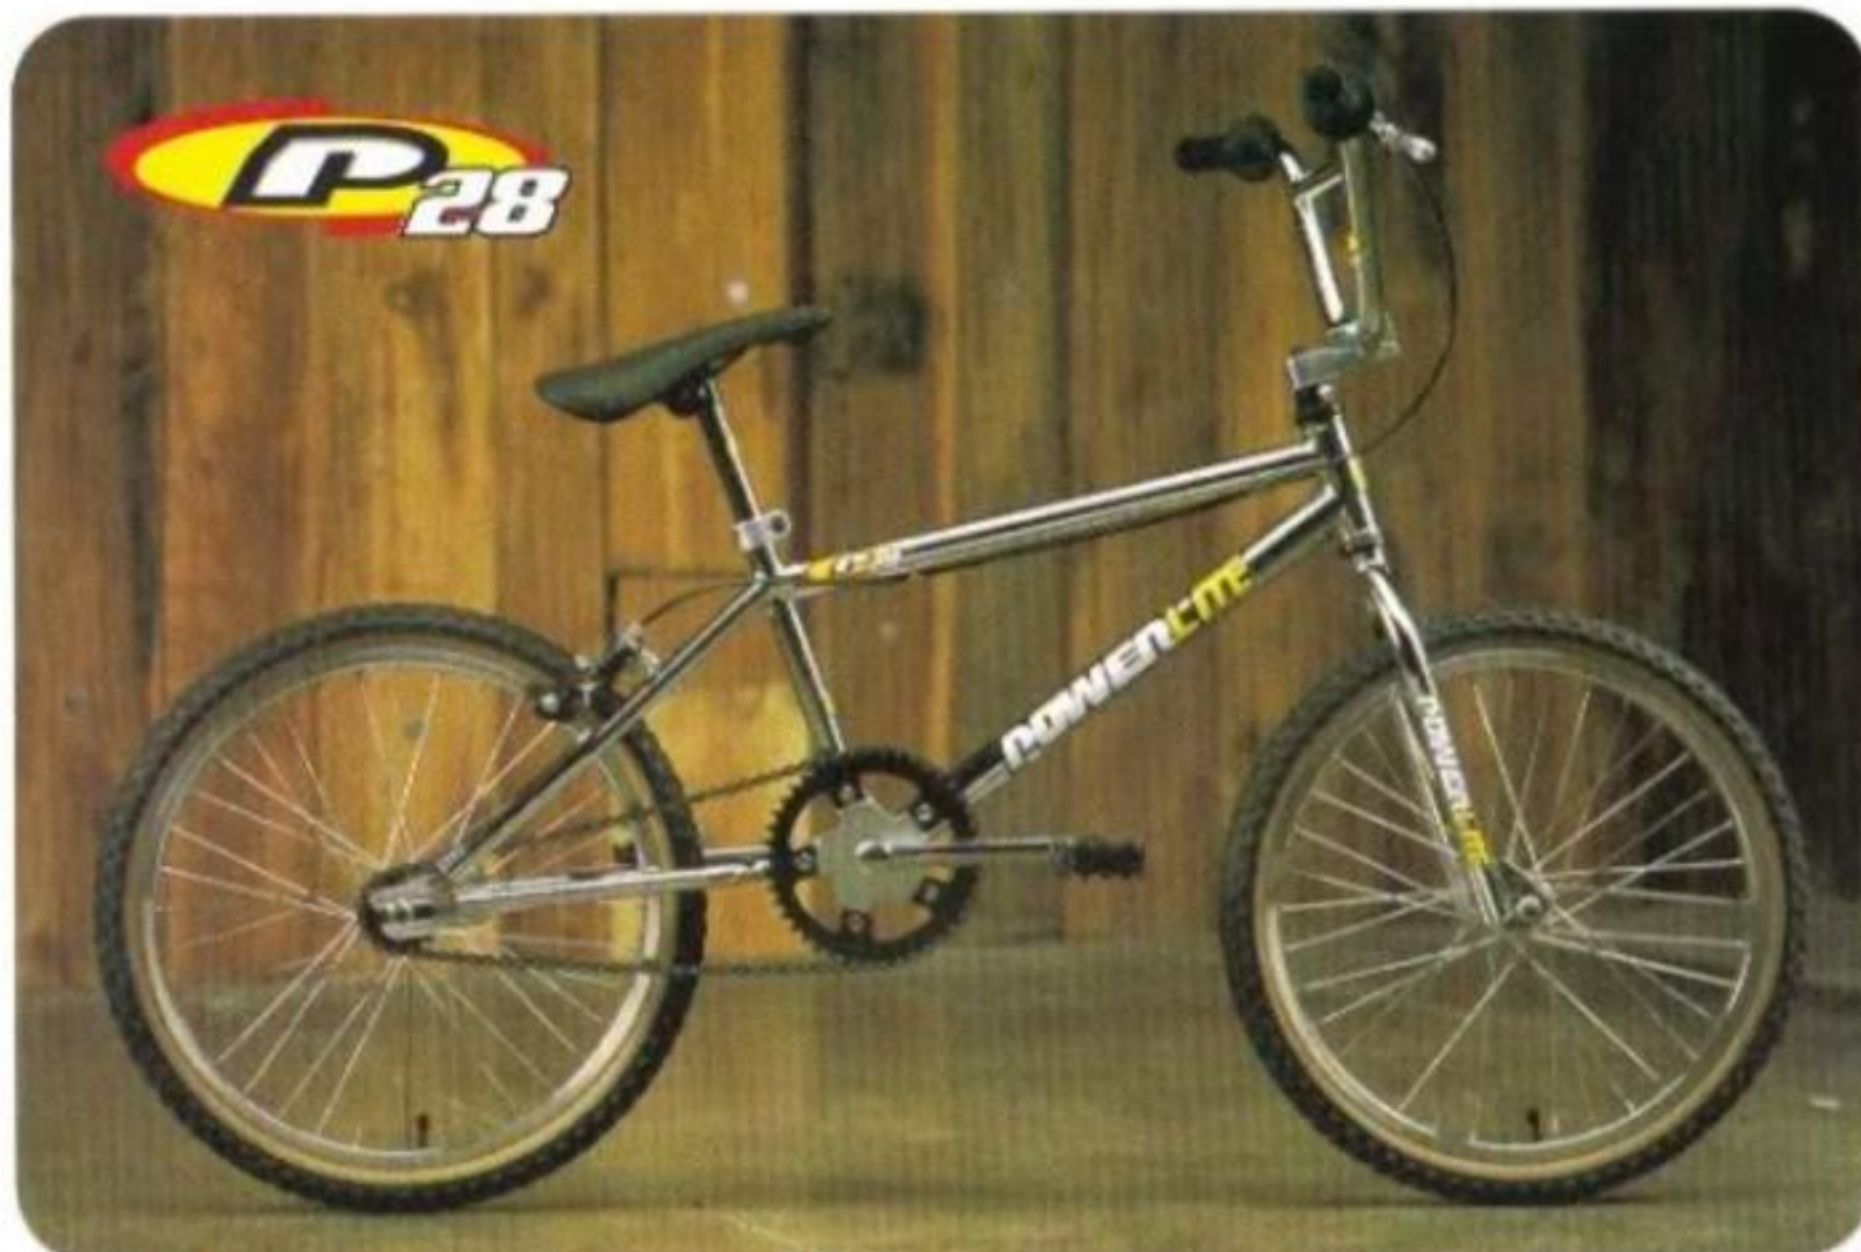

Add to it a Sugino alloy cranksset, new Powerlite seat post clamp and Sun 20x1-1/8" rims, and you have a complete made-in-the-U.S.A. junior race machine on your hands.

Built in the USA, the Powerlite P-38 is better than ever. Starting with a new design frame and fork, the P-38 throws down 100% chromoly construction, a 1-1/2" down tube and cantilever brakes.

Finishing out this race package is Powerlite handlebars, Weinmann aluminum rims and new Powerlite one-piece cranks. Whether you're looking to grind it up on the street or track, the P-38 is ready to go.

P-28 - *The Powerlite P-28 is the perfect bike for guys looking to get on the Powerlite Gear Grinding Squad. Built in the USA, the P-28 features a chromoly main frame, chromoly fork, Proponent brakes and a Powerlite alloy stem. It's time to grind, Powerlite style.*

P-19 - *Check out the Powerlite P-19 for the perfect around-town street cruiser. The P-19 features a Powerlite design frame, Proponent brakes, Powerlite alloy stem and alloy hubs. This bike will take you to the school yard and back in style.*

FRAMESETS

Take the next step towards the podium with Powerlite framesets.

Handcrafted in the USA, Powerlite's Junior, Mini and Micro framesets let you decide what's right when it comes to personal bike set up. Featuring 100% 6061-T6 heat treated aluminum, reinforcing head tube gussets, oversize tubing, and a ball burnished finish, these bikes are destined for one place.

1st.

It's no secret Powerlite has been building quality BMX frames for years. Now the secret is out that Powerlite has a complete line of accessories as well. With a component selection that includes stems, their famous handlebars, cranks and pedals. Powerlite has the goods.

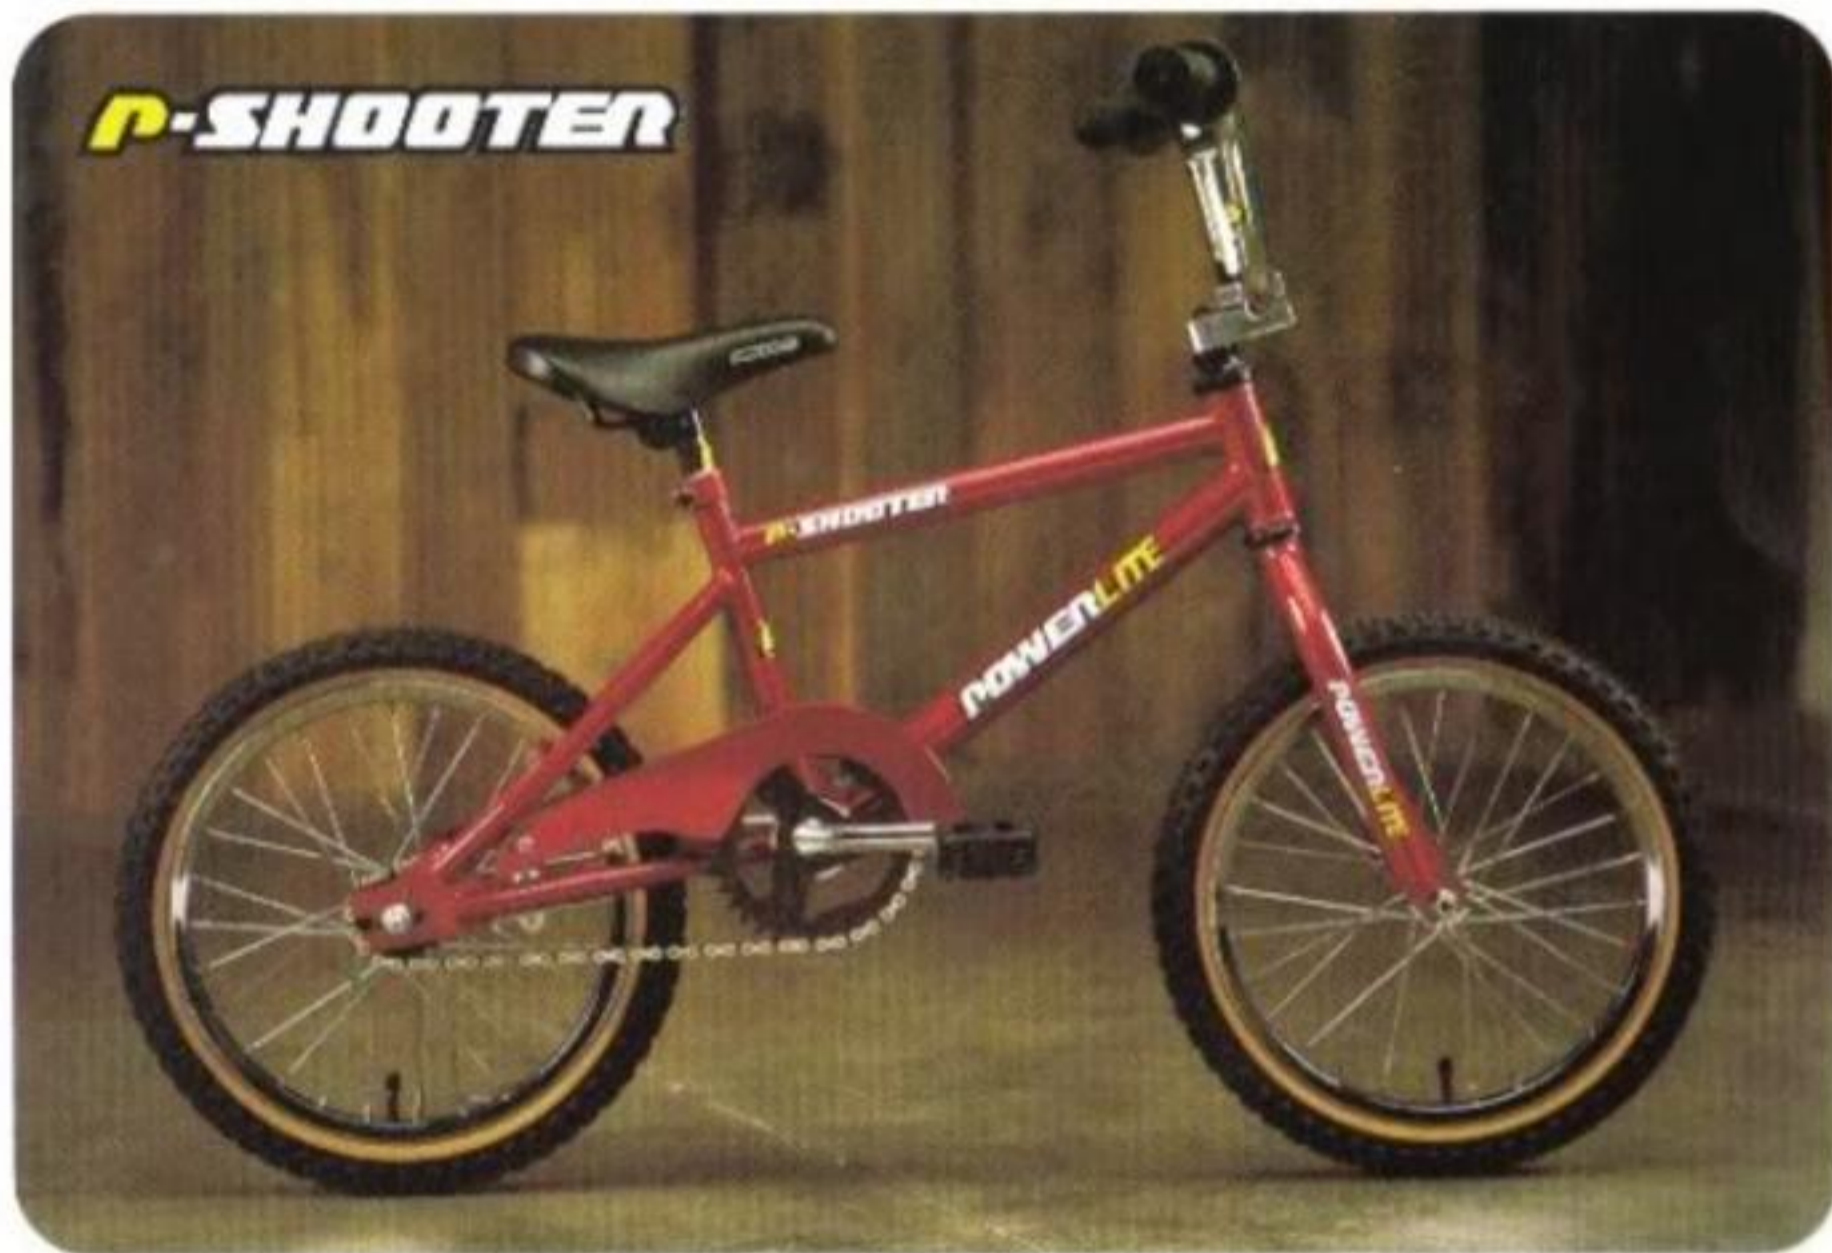

The P-16 has all the quality you have to come to expect from Powerlite and the addition of 6 speeds. Now you can have the solid feel of a BMX bike with the ability to tear up the streets like never before.

The ideal first Powerlite. The Powerlite P-11 starts with a low profile frame that accommodates the short legs of riders who can't fit onto a full sized 20" bicycle. Componentry on the P-11 will please both parents and young riders with a coaster brake, rear caliper brake, padded BMX saddle and platform nylon pedals.

P-Shooter - *The Powerlite P-Shooter has the little guys covered with high quality features like a reliable coaster brake, padded saddle, padset, comfortable grips and training wheels.*

Freestyle FRAMESET

Double thick dropouts, killer platform, super strong fork and oversize 4130 chromoly tubing make this USA made Powerlite Freestyle frameset the king of all asphalt.

BEASTIE
8 3/8" x 26" 065 UNCL.
37.4 OZ.

PRO
8 3/8" x 27 1/2" 27.5 OZ.

CRUISER
6 1/2" x 27 13/16" 22.0 OZ.

EXCITE
7 3/8" x 26" 25.5 OZ.

EXAL
7 3/8" x 26" 17.6 OZ.

MAX
6 1/2" x 24 1/2" 17 OZ.

KRM
5 1/2" x 25 1/2" 16.4 OZ.

RM
5 1/2" x 25 1/2" 405 grams

jr. 125
4 1/2" x 23 1/4" 360 grams

MINI 065
3 x 22 1/4" 100 grams

ULTRA MINI
065
3 x 18 1/4" 153 grams

1. Powerlite sealed bearing bottom bracket is available with a titanium or chromoly spindle. Titanium spindle also available separately.

2. Powerlite Pro and Junior forks are constructed from bulletproof 4130 chromoly and chrome plated to perfection. Dropouts are stamped with the "P" logo.

3. Powerlite stem is made from CNC cut billet aluminum with a chromoly shaft. Bar slippage is now a thing of the past. Available in Mini, Pro, and Pro XL sizes.

4. Powerlite 3-piece chromoly cranks have special ovalized tubular arms combined with a precision-splined chromoly spindle and sealed bottom bracket. 175, 180, 185 and 190mm lengths available.

5. Powerlite junior alloy pedals. Ultra light weight design, chromoly spindles, sealed bearings, replaceable cages, laser cut logo.

6. Powerlite machined alloy cranks are designed for smaller riders. Constructed from 7075 billet aluminum and available in 155, 160, 165, 170 and 175mm lengths. High polished finish.

7. Powerlite machined alloy sprocket is precision CNC cut like a billet car wheel and polished to perfection.

8. Powerlite Double-Bolt Seat post Clamp. This powerful seat post clamp is hexagonal but don't use a pipe-wrench to take it off.

9. Redesigned and better than ever, this Powerlite number plate will turn their heads when you cross the finish line.

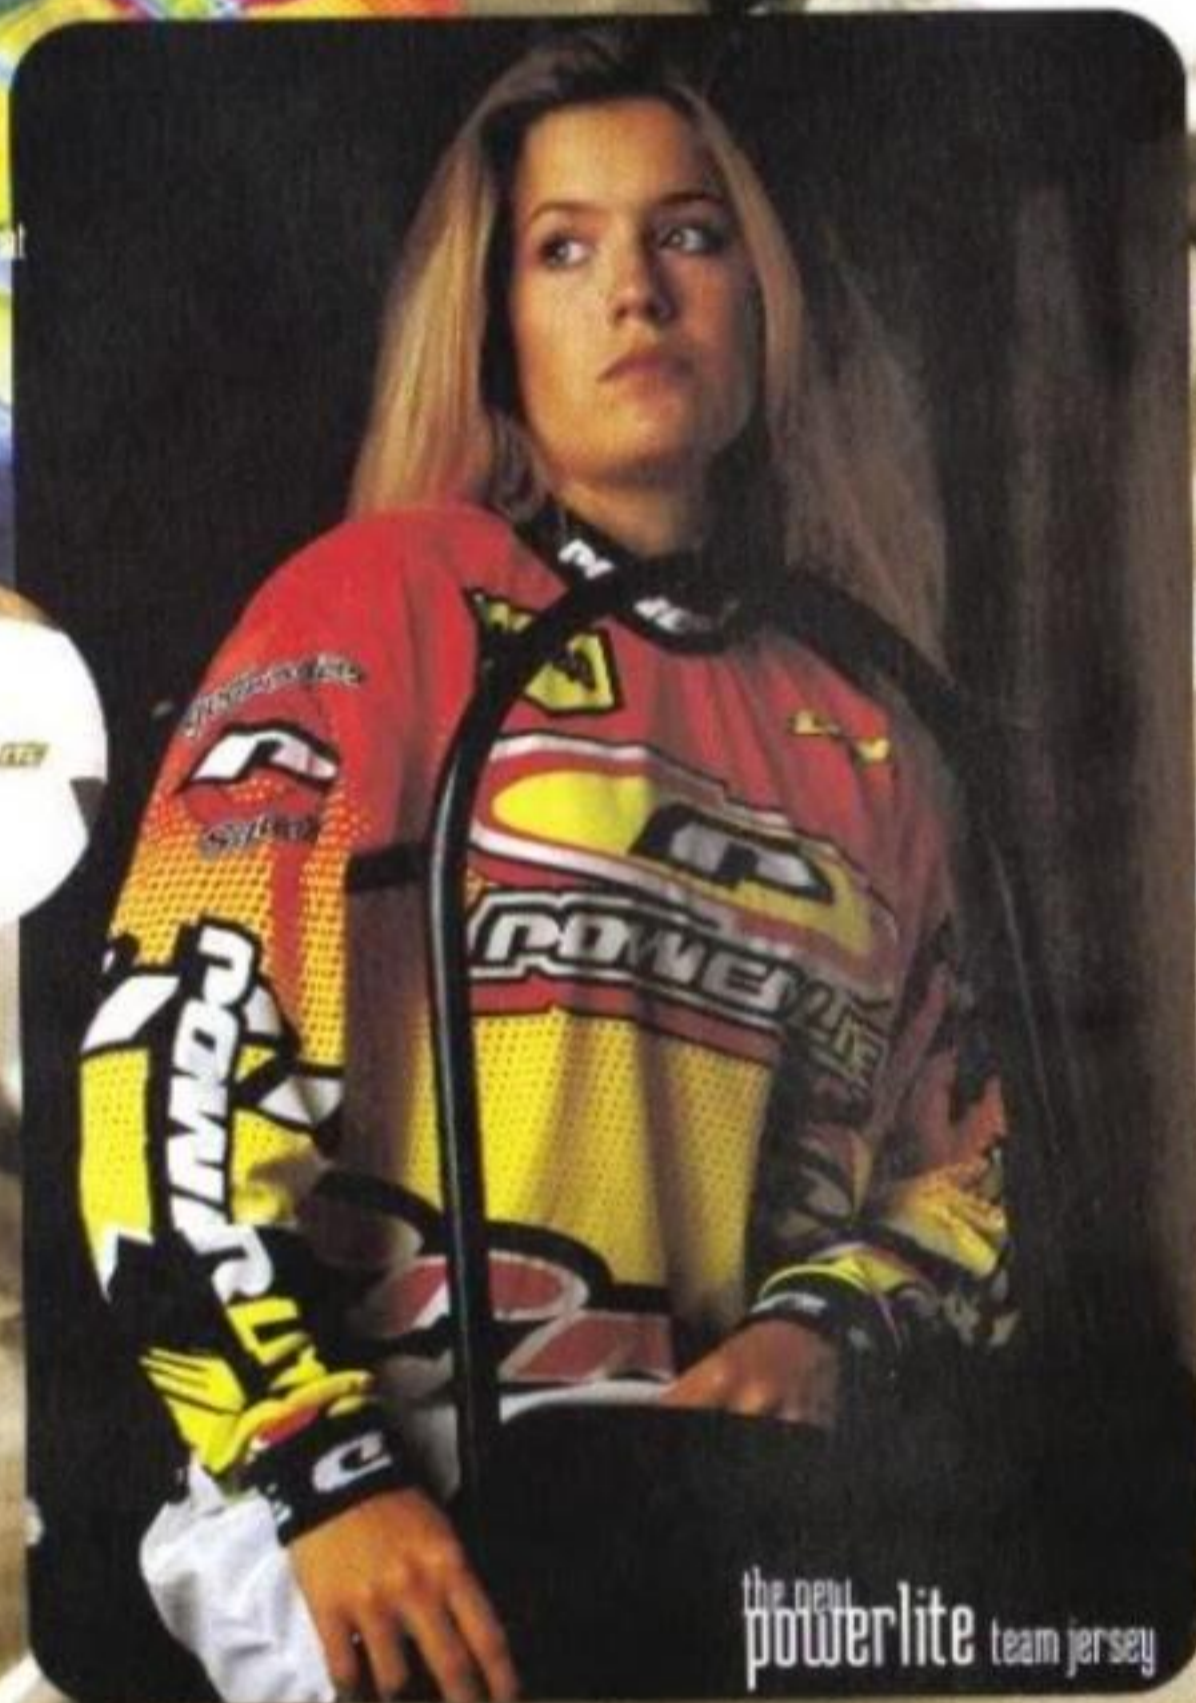

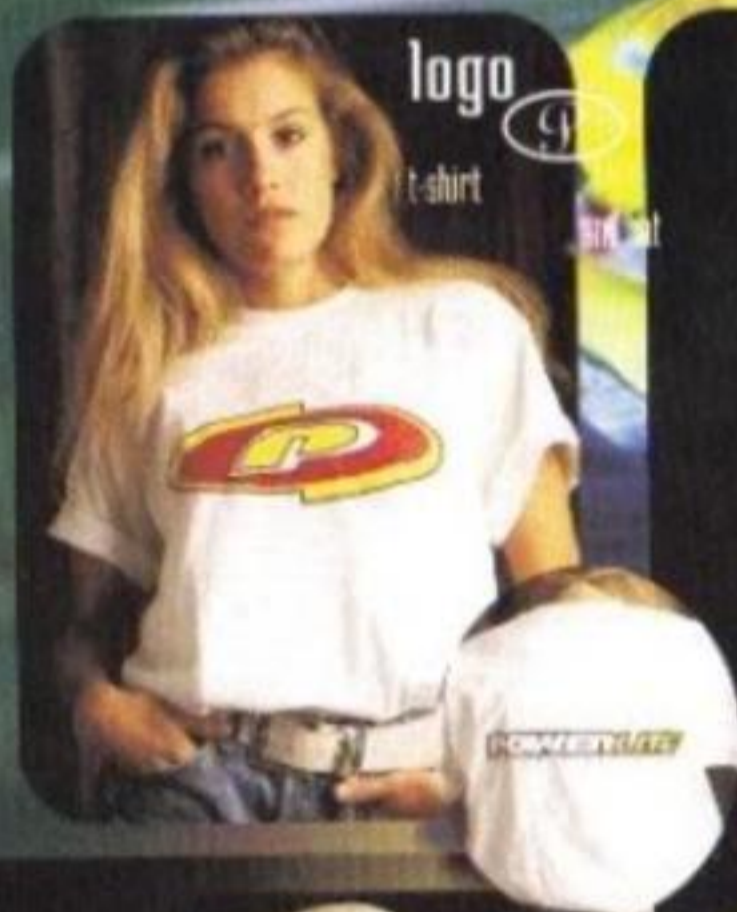

10. Made in the USA. Dialed in CNC machined solid billet of 7075 aluminum makes this Aheadset style stem the trickiest component on the circuit.

11. Powerlite Seat post. Made in the USA. This pure 4130 chromoly seat post is the post to have.

12. 1995 Powerlite grips for the ultimate grippage.
