

SAMS 1996

Round 1 - Puddletown, Dorset

Downhill Results

21 April 1996

The Promoters of the 96 SAMS Series would like to extend their thanks to all downhill riders for their patience during Round 1 of the Series and we would like to offer the following reasons for this isolated reduction of our standard. The '96 series became sanctioned with the BMB less than two weeks prior to Round 1 and the new categories had not been relayed to us which meant that our working database was out of date - hence the reason why 'youth' and 'master' were either not present or satisfactory. These have now been put right.

Secondly, on Friday representation was made to SAMS to modify the course. Attempts to comply resulted in confusion on the day and we now realise that the course should have been left as it was originally designed. Attempting to change it led to some disruption and a regrettable delay to the start of the race and a breakdown in the start procedure. Likewise this will not occur at Round 2 where the scrutinised course will offer more for the skilled downhiller and set procedures will be able to service the racing.

In conclusion, over 100 entered on the day and we ask that in the interest of a smooth administration riders pre-enter. Entry closing times will apply to EVERYONE.
