

**TORKER BICYCLES 2000**

# RACE

STRONG, FAST, RELIABLE BIKES FOR STRONG, FAST RACE COMPETITION. ADVANCED DESIGNS FOR 2000.

#### TEAM RIDER

##### MATT HADAN

The Pro Class : When the gate drops, the war begins. Eight adrenalin-pumped racers, each waging an all-out battle to be the first one across the line.

Now in his 20th year of racing, Matt 'Diesel' Hadan thrives on the challenge of trying to be the best every weekend. And he has proven to be one of the most consistent, beginning with his AA Pro debut win at the age of 20, and including his Pro Cruiser win at the '97 ABA Grandnationals and his World Cruiser title.

If you spot him at the local truck stop, don't worry...he's not there for the chili and country music.

#### TEAM RIDER

##### CLARENCE PERRY

Off the track, Clarence Perry is one of the most approachable, helpful BMX heroes around. Hero? After 23 years of racing, including podium spots at Gold Cup, R.O.C., National, and World Cup races all over the globe, he's still going strong and willingly offers his advice to anyone who asks. Why?

Because he loves the sport and the people involved in it. But they don't call him Earthquake for nothing...Because on the track, he is 6' 1", 206lbs of continent-shaking, track flattening, tectonic plate-shifting, Richter-scale maxing power. Most bikes would be reduced to rubble. That's why Torker designed the Earthquake cruiser.

#### TEAM RIDER

##### JASON CARNES

Jason Carnes was a 14-year old freestyler when his bike was stolen in 1986. So, he borrowed his buddy's bike, took it to the local track, and instantly became hooked on racing. His resume includes winning the A Pro class at the "94 ABA Grandnationals and the "96 Australian Pro Challenge.

Now racing For Torker, Jason gets really stoked when he sees the racers who've attended his clinics do better at their very next national.

# TRAIL

WHAT DO YOU WANT TO JUMP TODAY? TOUGH BIKES MADE TO RIP UP THE TRAILS, VERT & DIRT.

JIM BURGESS  
PHOTO BY TERRY DONALDSON

TEAM RIDER

**JIM BURGESS**

Jim Burgess started racing when he was 8 years old. 9 years later he was competing on the national circuit as a 17x when he discovered ramps. He immediately traded in his number plate for body armor and started learning an entirely new way of riding a bike. He's as comfortable mixin' it up with the crowd as he is in the air and he'll always answer your questions.

Be sure to catch Jim and his Torker Epidemic at the next contest or on video soon.
